Building B, 3W11
Fort Collins, CO 80526

RE: Registration for Research Facilities, Customer Number 1411, Certificate Number 74-R-0039
Triennial Renewal Date: March 19, 2020

Dear Dr. Gibbens,

In compliance with the Animal Welfare Act and Animal Welfare Regulations, enclosed is Texas A&M University Health Science Center's renewal Application for Registration for Research Facilities.

The following modifications have been made to the form:

- Block 1 has been updated to remove "mail stop" as this is no longer a required component of the mailing address, and to spell out "University" and "College Station"
- Block 2 has been updated to list all three current performance sites for this registration (no changes have been made)

As the Institutional Official, I can legally obligate Texas A&M University Health Science Center to the United States Department of Agriculture for the purposes of the Animal Welfare Act compliance.

If you have any questions, or need additional information, please let me know.

Sincerely,

(b) (6), (b) (7)(C)

(b) (6), (b) (7)(C) for Research/Institutional Official

Cc: Dr. (b) (6), (b) (7)(C)
Dr. [REDACTED]
