Dear Dr. Lakin,

The Office of Laboratory Animal Welfare (OLAW) acknowledges receipt of your July 16, 2019 letter reporting an instance of noncompliance with the PHS Policy on Humane Care and Use of Laboratory Animals at the University of Colorado – Denver. According to the information provided, OLAW understands that your institution received reports of three separate incidents of mice tail-clipped after the standard 21-day timeframe. In each case, the technicians and the rest of the research staff were retrained. It was stated that the animal activities were funded by the PHS.

The consideration of this matter by the University of Colorado – Denver was consistent with the philosophy of institutional self-regulation. Similarly, the action taken to prevent recurrence of the issue is appropriate. We appreciate being informed of this matter and find no cause for further action by this office at this time.

Sincerely,

Dear Dr. Morse;

The Institutional Animal Care and Use Committee (IACUC) at the University of Colorado Denver | Anschutz Medical Campus received reports of three separate animal welfare incidents involving mice tail clipped after the standard 21-day timeframe set by CU Denver IACUC policy. In each case, the technician and the rest of the research staff were retrained.

At a convened meeting of a quorum of the IACUC, a majority of the quorum present determined to accept the actions as taken and further determined that the Office of Laboratory Animal Welfare (OLAW) be informed of this incident. (NIH Grants # 1R01HL125642; K12 HD068372; AI121209)

Please let me know if you require further information.

Sincerely,
