Dear Dr. Lakin,

The Office of Laboratory Animal Welfare (OLAW) acknowledges receipt of your July 31, 2019 letter reporting an instance of noncompliance with the PHS Policy on Humane Care and Use of Laboratory Animals at the University of Colorado – Denver. According to the information provided, OLAW understands that a PI self-reported that mice had been fasted for 24 hours although this had been inadvertently omitted on the approved protocol. Corrective actions included sending a letter of reprimand to the PI and submitting a protocol amendment, which has been approved. It was stated that the animal activity was funded by the PHS.

The consideration of this matter by the University of Colorado – Denver was consistent with the philosophy of institutional self-regulation. Similarly, the action taken to prevent recurrence of the issue is appropriate. We appreciate being informed of this matter and find no cause for further action by this office at this time.

Sincerely,

Dear Dr. Morse;

The Institutional Animal Care and Use Committee (IACUC) at the University of Colorado Denver | Anschutz Medical Campus received a report of an animal welfare incident; specifically the PI self-reported that mice had a 24-hour fasting performed. This procedure was inadvertently omitted on the approved protocol during the three year rewrite.

At a convened meeting of a quorum of the IACUC, a majority of the quorum present determined that a letter of reprimand be sent to the PI and that an amendment be submitted. This has been completed. The Committee determined further that the Office of Laboratory Animal Welfare (OLAW) be informed of this incident. (NIH Grant # GM102525)

Please let me know if you require further information.

Sincerely,
