Dear Dr. Lakin,

The Office of Laboratory Animal Welfare (OLAW) acknowledges receipt of your September 26, 2019 letter reporting an instance of noncompliance with the PHS Policy on Humane Care and Use of Laboratory Animals at the University of Colorado – Denver. According to the information provided, OLAW understands that laboratory members violated the euthanasia policy by trying to euthanize twenty mice at the same time in one cage. The euthanasia policy was sent to the Investigator and his PRA indicated that this was corrected the following day. A letter of reprimand was sent to the PI and all laboratory staff were retrained in proper euthanasia techniques. It was stated that the animal activity was funded by NIH.

The consideration of this matter by the University of Colorado – Denver was consistent with the philosophy of institutional self-regulation. Similarly, the action taken to prevent recurrence of the issue is appropriate. We appreciate being informed of this matter and find no cause for further action by this office at this time.

Sincerely,

Dear Dr. Morse;

The Institutional Animal Care and Use Committee (IACUC) at the University of Colorado Denver | Anschutz Medical Campus received a report of an animal welfare incident; specifically that laboratory members violated the euthanasia policy by trying to euthanize twenty mice at the same time in one cage. The euthanasia policy was sent to the Investigator, and his PRA indicated that this was corrected the following day.

At a convened meeting of a quorum of the IACUC, a majority of the quorum present determined that a letter of reprimand be sent to the PI and that all laboratory staff must be retrained in proper euthanasia techniques. This has been completed. The Committee determined further that the Office of Laboratory Animal Welfare (OLAW) be informed of this incident. (NIH Grant # 2R01AR51749-10A1)

Please let me know if you require further information.

Sincerely,
