Re: Animal Welfare Assurance
A3269-01 [OLAW Case 3L]

Dr. Alison Lakin
Associate Vice Chancellor
for Regulatory Compliance
University of Colorado Health Sciences Center
13001 East 17th Place
Anschutz Medical Campus Bldg. (b) (4)
Denver, Colorado 80262

Dear Dr. Lakin,

The Office of Laboratory Animal Welfare (OLAW) acknowledges receipt of your January 17, 2020 letter reporting an instance of noncompliance with the PHS Policy on Humane Care and Use of Laboratory Animals at the University of Colorado.

According to the information provided, this Office understands that the University of Colorado Animal Care and Use Committee (ACUC) determined that instances of noncompliance occurred with respect to: mice that were tail clipped and ear tagged after the standard 21-day timeframe set by CU Denver IACUC policy. The letter states that the associate reported that she delayed tagging and tail snipping due to the small size of the mice. At a convened meeting of a quorum of the IACUC, the committee determined that the information about the size of the mice and delayed snipping should be added to the protocol if this is a continuing issue and the PI should be notified of the IACUC policy. The IACUC determined to accept the actions as taken and inform OLAW of the incident.

It is noted that the final report did not include the funding source involving the incident. In the future, please include the source of funding and provide grant numbers for all PHS or NSF supported work. Based on its assessment of this explanation, OLAW understands that the University of Colorado has implemented appropriate measures to correct and prevent recurrences of these problems and is now compliant with provisions of the PHS Policy. We appreciate being informed of these matters and find no cause for further action by this Office.

Sincerely,

(b) (6)

Jacquelyn T. Tubbs, DVM
Veterinary Medical Officer

Animal Welfare Assurance # D16-00171

Brent Morse, DVM
Division of Compliance Oversight
Office of Laboratory Animal Welfare
Rockledge One, Suite 360
6705 Rockledge Drive – MSC 7892
Bethesda, Maryland 20892-7982

Dear Dr. Morse;

The Institutional Animal Care and Use Committee (IACUC) at the University of Colorado Denver | Anschutz Medical Campus received a report of an animal welfare incident; specifically mice were tail clipped and ear tagged after the standard 21-day timeframe set by CU Denver IACUC policy. The associate reported that she delayed ear tagging and tail snipping due to the small size of the mice.

At a convened meeting of a quorum of the IACUC, a majority of the quorum present determined that the information about the size of the mice and delayed snipping should be added to the protocol if this is a continuing issue and the PI should be notified of the IACUC policy. The IACUC determined to accept the actions as taken and further determined that the Office of Laboratory Animal Welfare (OLAW) be informed of this incident. (NIH Grant # AR062547)

Please let me know if you require further information.

Sincerely,

(b) (6)

Alison Lakin RN, LLB, LLM, PhD
