INSTITUTIONAL ANIMAL CARE AND USE COMMITTEE (IACUC).

IACUC completed a facility inspection on May 20, 2015. No completed semi-annual evaluation report has been sent to the Institutional Official. In order to apprise the Institutional Official of the status of the facility's programs and facilities and to allow the IO to follow up on correction of significant deficiencies, the IACUC must complete a report of its evaluations and submit it to the IO in a timely fashion. The IACUC shall prepare reports of its program for humane care and use of animals and facility inspection at least once every six months and submit them in a timely manner to the Institutional Official.

Correct from this day forward

ANNUAL REPORT.

The annual report provided to USDA for fiscal year 2015 did not include Rabbits used in teaching areas. The records of the rabbits use in the teaching area was found during a review of animal records during the inspection. In conversation with the Institutional Official, it was explained that there had been personnel changes in recent past that may have resulted in this discrepancy. Current numbers are being kept by several members of the IACUC and they are currently exploring multiple options for future back-up systems to ensure that numbers are checked and remain accurate. Numbers of animals must be accurately kept and reported on the annual report in order to ensure proper regulatory oversight by and communication with USDA. Correct by ensuring that numbers of animals used in regulated activities are accurate from this point forward, and by submitting an amended report for the fiscal year 2015 to:
