* Names of members, other than the chairperson and veterinarian, may be represented by a number or symbol in this report to OLAW. Sufficient information to determine that all appointees are appropriately qualified must be provided and the identity of each member must be readily ascertainable by the institution and available to authorized OLAW or other PHS representatives upon request.

** List specific position titles for all members, including nonaffiliated (e.g., banker, teacher,

volunteer fireman; not "community member" or "retired").

*** PHS Policy Membership Requirements:

<i>Veterinarian</i>	veterinarian with training or experience in laboratory animal science and medicine or in the use of the species at the institution, who has direct or delegated program authority and responsibility for activities involving animals at the institution.
<i>Scientist</i>	practicing scientist experienced in research involving animals.
<i>Nonscientist</i>	member whose primary concerns are in a nonscientific area (for example, ethicist, lawyer, member of the clergy).
<i>Nonaffiliated</i>	individual who is not affiliated with the institution in any way other than as a member of the IACUC, and is not a member of the immediate family of a person who is affiliated with the institution. This member is expected to represent general community interests in the proper care and use of animals and should not be a laboratory animal user. A consulting veterinarian may not be considered nonaffiliated.

[Note: all members must be appointed by the CEO (or individual with specific written delegation to appoint members) and must be voting members. Non-voting members and alternate members must be so identified.]

I.B. Program Changes

Change in LSU Health Sciences Center program for animal care and use:

- There was a new course called Anesthesia and Analgesia of Lab Animal Rodents added to the Division of Animal Care Animal Research Training courses.
- If research is conducted at another institution, and LSUHSC is the primary grant holder and funding some or all of the animal work, the Principal Investigator may submit an abbreviated LSUHSC-NO IACUC application to provide demographic, title, biosafety, personnel and grant information and submit the performance site IACUC application in lieu of completing the remaining sections of the LSUHSC-NO IACUC application. The PI must provide documented approval from the performance site IACUC.
If LSUHSC is listed as a subcontract to a primary grant holder at another institution that involves animal research, and the subcontract PI is NOT conducting any animal work at LSUHSC, a Memorandum of Understanding (MOU) must be submitted that attests to the work being conducted at LSUHSC and the performance site's IACUC protocol. No LSUHSC IACUC application is required. Some scenarios this would apply to would be consultation work, data analysis, and animal tissue processing. By unanimous vote, effective October 21st, 2019, the members of the IACUC agreed to this policy. DMR will continue to be used in these situations. However, LSUHSC-NO IACUC reserves the right to request additional information including requesting the completion of the LSUHSC-NO IACUC application.
- A management of controlled substances SOP was instituted in June 2019, as a means to aid investigators in applying for their Louisiana CDS and DEA licenses.
- A transportation SOP was instituted in October 2019, to clearly state how animals need to be transported, as well as how the vehicle should be prepared.
