* Names of members, other than the chairperson and veterinarian, may be represented by a number or symbol in this report to OLAW. Sufficient information to determine that all appointees are appropriately qualified must be provided and the identity of each member must be readily ascertainable by the institution and available to authorized OLAW or other PHS representatives upon request.

** List specific position titles for all members, including nonaffiliated (e.g., banker, teacher, volunteer fireman; not "community member" or "retired").

*** PHS Policy Membership Requirements:

Veterinarian veterinarian with training or experience in laboratory animal science and medicine or in the use of the species at the institution, who has direct or

delegated program authority and responsibility for activities involving animals at the institution.

Scientist practicing scientist experienced in research involving animals.

Nonscientist member whose primary concerns are in a nonscientific area (for example, ethicist, lawyer, member of the clergy).

Nonaffiliated individual who is not affiliated with the institution in any way other than as a member of the IACUC, and is not a member of the immediate family of a person who is affiliated with the institution. This member is expected to represent general community interests in the proper care and use of animals and should not be a laboratory animal user. A consulting veterinarian may not be considered nonaffiliated.

[Note: all members must be appointed by the CEO (or individual with specific written delegation to appoint members) and must be voting members. Non-voting members and alternate members must be so identified.]

Attachment 1: Changes in the Institution's program for animal care and use as described in the Assurance

1. **Change in Designated Member Review (DMR) Timing – Section III.D.6):** DMR may be initiated prior to the expiration of the deadline for members to call for Full Committee Review (FCR); however the submission may not be approved by the DMR prior to the deadline and must undergo FCR regardless of the outcome of the DMR's review when called for FCR.
2. **Change in FCR Timing – Section III.D.6):** Submissions that are called to FCR are presented at a convened meeting of a quorum of the IACUC, which may or may not be the "next" convened meeting of the Committee.
3. **Change in Continuing Review Procedure – Section III.D.9):** Continuing Review documents submitted for protocols with USDA regulated species are reviewed as described for Protocols and Significant Modifications, rather than automatically undergoing FCR as described in the Assurance.
4. **Change in Suspension Procedure – Section III.D.10):** Animals from a suspended protocol are placed under the control of the Attending Veterinarian and animal facility staff without the use of a holding protocol. Standard operating procedures for the animal facility are employed for the husbandry and care of the animals.
