Raleigh, NC 27606-5210

Attached is our annual report to the United States Department of Agriculture.

The IACUC approved, with scientific justification, two exceptions to the standards of the Animal Welfare Act.

The first specific standard was 9 CFR Ch. 1, Part 3, Subpart B, and Section 3.83. The IACUC approved water restriction for behavioral testing purposes in nonhuman primates. This exception affected 5 nonhuman primates (macaques) in the past fiscal year.

The second specific standard was 9 CFR, Ch. 1, Part 3, Subpart B, Section 2.81(a) and Section 2.36 (b)(3). The IACUC approved exemptions for social housing for nonhuman primates. This exception affected 11 nonhuman primates (macaques) in the past fiscal year.
