UNIVERSITY OF WISCONSIN-WHITEWATER

Type: ROUTINE INSPECTION

Date: Mar-31-2016

2.33 (a) (1)

ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE.

*** A current written program of veterinary care was not available during the inspection. The program of veterinary care was last reviewed by the attending veterinarian in September 2015, however, did not have a current listing of regulated animals at the facility. The marmots and 13-lined ground squirrels were not listed on the program of veterinary care. Failure to have an accurate written program of veterinary care that has been reviewed by the attending veterinarian does not provide for adequate veterinary care of the animals. It is the responsibility of the licensee to ensure the written program of veterinary care accurately reflects the species of animals utilized at the facility so that the appropriate veterinary care will be provided.

Correct by: April 8, 2016

Inspection and exit interview was conducted with the facility representative.
