

Explanation of Animal Totals- 2010

Column E. APHIS Form 7023
Registration Number 33-R-0025/584

Species common name	Number of animals	Procedure	Explanation/Justification why pain/distress could not be relieved
Rabbit	3	Pharmacokinetics studies related to Discovery compounds	Inadvertent dosing accident occurred in 2 rabbits used in pharmacokinetic studies, resulting in death of the animals before intervention was possible. 1 rabbit died suddenly after IV dosing of test article with no premonitory signs; thus precluding intervention by veterinary staff.

NV 12-22-2010

Obtained by Rise for Animals.
