According to the Paperwork Reduction Act of 1995, an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 0579-0036. The time required to complete this information collection is assimated to average 2 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information.

This report is required by law (7 U.S.C. 2143). Failure to report according to the regulations can result in an order to cease and desist interagency Report Control No. 0180-DOA-AN

Exception to AWR Summary:

The IACUC approved one protocol during this period that involved water scheduling for nonhuman primates. This exception affects two *Macaca mulatta* and one *Macaca nemestrina*.

The justification for the exception is as follows:

This IACUC protocol employs standard methods used to study sensory and motor function in animals performing behavioral tasks and conforms to the guidelines set forth in the 1996 National Research Council publication Guide for the Care and Use of Laboratory Animals [pg. 12], and Van Sluyter RC et al (2003) Guidelines for the Care and Use of Mammals in Neuroscience and Behavioral Research. Washington, DC: National Academy Press, [pg. 209].
