ASSURANCE STATEMENTS

- Professionally acceptable standards governing the care, treatment, and use of animals, including appropriate use of anesthetic, analgesic, and tranquilizing drugs, prior to, during, and following actual research, teaching, testing, surgery, or experimentation were followed by this research facility.
- Each principal investigator has considered alternatives to painful procedures.
- This facility is adhering to the standards and regulations under the Act, and it has required that exceptions to the standards and regulations be specified and explained by the principal investigator and approved by the Institutional Animal Care and Use Committee (IACUC). A summary of all such exceptions is attached to this annual report. In addition to identifying the IACUC approved exceptions, this summary includes a brief explanation of the exceptions, as well as the species and number of animals affected.
- The attending veterinarian for this research facility has appropriate authority to ensure the provisions of adequate veterinary care and to oversee the adequacy of other aspects of animal care and use.

Re: Penn State University's 2009 Annual Report to the USDA (Reporting Period: October 1 - September 30)

Dear Dr. Goldentyre:

As requested, I am enclosing the Annual Report of the Research Facility for animals at the Pennsylvania State University. The only Penn State location to use USDA covered species during the reporting period was the University Park location. Consequently, no other Penn State locations are referenced in this report. Please note that no exceptions to the regulations or standards were approved by the IACUC nor were any conducted during this reporting period.

Please note that the dogs listed on this report were used in behavioral studies and for classroom activities. These animals were privately owned, remained under the supervision of their owners, and were not housed at the Pennsylvania State University. Many cats were also purchased as preserved specimens and used as a model for anatomy instruction.

Thank you,

(b)(6), (b)(7)c
