

**[University of Texas MD Anderson Cancer Center: Keeling Center / National Center for Chimpanzee Care]
[Census of NIH-supported/owned chimps, 30 Sept 2019]**

Name	ISIS	Sex	DOB	Age (as of 9/1/2018)	Pathogen	Other Exposure	Description	NIH Health Classification	Health Status	Relationship to others in group	Social history	Years of social history
Redacted by agreement												
SIMBA	2724	M	01/01/71	48	Exposed HBV		Severe behavior that may restrict integration into social groups and cause harm to self, cardiac disease, chronic otitis, geriatric	V	Very fragile		Been with females since 1999	20
CHECHEKUL	4544	F	05/03/82	36	Exposed HBV/HCV		Extremely high anesthetic risk, hx of apnea/shock during anesthesia, geriatric	V	Very fragile	Has been with Nahagio since infancy	Been with Nahagio since infancy	36
NAHAGIO	4532	F	03/27/82	36	Exposed HBV/HCV		Hypertension, osteoarthritis, mild cardiac disease, geriatric	III	Fragile	Has been with Chechekul since infancy	Been with Chechekul since infancy	36
TULIK	4206	F	05/01/80	38	Exposed HBV/HCV		Severe renal disease (previous unilateral nephrectomy), geriatric	V	Very fragile		Introduced to group in 2010	9
PEHGIA	5047	F	06/27/84	34	Naive		Epilepsy/seizures, anesthetic risk	V	Very fragile		Introduced to group in 2010	9
KAKAICHU	4305	F	12/11/80	38	Exposed HBV/HCV		Cervical mass, geriatric	III	Compromised	Socially dependent on Chechekul and Nahagio	Been with females since 1999	20
											22	AVERAGE
Redacted by agreement												
KENO	5753	M	06/13/91	27	Other Exposure	RSV/monoclonal	QOL, hepatocellular carcinoma	V	QOL, Very fragile		Raised together in nursery	27
OSCAR	5563	M	07/13/89	29	Exposed HCV/other exposure	RSV	Cryptorchid, mild osteoarthritis, severe behavior that could cause severe harm to themselves and may restrict their integration into social groups	IV	Fragile		Raised together in nursery	29
BECCA	5717	F	02/11/91	28	Other Exposure	RSV/monoclonal	Severe behavior that could cause severe harm to herself and may restrict integration into social groups, chronic ear infections	V	Very fragile		Raised together in nursery	28
											28	AVERAGE
Redacted by agreement												
MARTHA	2429	F	01/01/66	53	Exposed HBV/HCV		High anesthetic risk, hypertension, severe osteoarthritis, geriatric	V	QOL, Very Fragile	surrogate Mom to Zoe	Has been with group since arrival in 1981	38
ZOE	10254	F	04/13/02	16	Naive		Morbidly obese, chronic otitis, high anesthetic risk, apnea	IV	Fragile	surrogate daughter of Martha	Same group since birth	16
CECELIA	5721	F	02/24/91	28	Other Exposure	monoclonal	Severe hepatic disease, cardiac disease, high anesthetic risk	V	QOL, Very Fragile		Same group since birth	28
TASHA	5871	F	11/18/92	26	Other Exposure	monoclonal	Uncontrolled Type II diabetic, hepatic disease	IV	Fragile		In group since 2012	7
AKIMEL	4152	M	02/09/80	39	Exposed HBV/HCV		Geriatric, severe behavior that may restrict his integration into social groups	IV	Fragile		In group since 2010	9
											20	AVERAGE
Redacted by agreement												
ANGIE	3462	F	01/01/75	44	Naive		Chagas +, osteoarthritis, history of cocci+, hypertension, geriatric	IV	Fragile		Housed with Nahja, Cheopi, Kihl and Mahsho since 2005	14
CHEOPI	6493	F	12/09/90	28	Naive		Severe behavior that could cause severe harm to herself and may restrict integration into social groups	IV	Fragile	Sister to and dependent on Nahja, has been with Nahja since infancy. Nursery mates to Nahja, Kihl, Judumi, and Gaygos.	Nursery mates to Nahja, Judumi, Kihl, and Gaygos since 1990	28
NAHJA	5664	F	07/04/90	28	Naive		Hypothyroid, cardiac disease, moderate osteoarthritis	IV	Fragile	Sister to and dependent on Cheopi, been with Cheopi since infancy. Nursery mates to Cheopi, Kihl, Judumi, and Gaygos.	Nursery mates to Cheopi, Judumi, Kihl, and Gaygos since 1990	28
RADAR	5608	M	01/14/90	29	Other Exposure	RSV	Moderate anesthetic risk	III	Compromised		In this group since 2015	3
KIHL	5461	F	08/06/88	30	Exposed HBV/HCV		Severe behavior that could cause severe harm to herself and may restrict integration into social groups	IV	Fragile		Nursery mates to Cheopi, Judumi, Nahja, and Gaygos since 1990	29
JUDUMI	5676	M	08/26/90	28	Exposed HBV/HCV/other exposure	RSV	Difficult introduction, cardiac disease, very long anesthesia recovery	IV	Fragile		Nursery mates to Cheopi, Nahja, Kihl, and Gaygos since 1990	29
MAHSHO	5480	M	10/26/88	30	Naive		History of cocci+	III	Healthy		Housed with Nahja, Kihl, Cheopi since 2007	11
CODY	5618	M	02/05/90	29	Other Exposure	RSV	Difficult sedation including mild behavioral disturbance	III	Healthy		With this group since 2015	3
											18	AVERAGE
Redacted by agreement												
PUNCH	4647	M	12/28/82	36	Naive		Cardiac disease, severe thrombocytopenia, obese, geriatric	V	QOL, Very fragile	Has lived with Doyle and Kudzu since 9 years of age	Has been with Kudzu and Doyle since 9 yo	27
DOYLE	4721	M	05/22/83	35	Naive		Mild cardiac disease, moderate osteoarthritis, hx of trauma, geriatric	IV	Fragile	Has lived with Punch and Kudzu since 9 years of age	has been with Kudzu and Punch since 9 yo	27

KUDZU	4639	M	12/07/82	36	Naïve		Mild hepatic disease, moderate osteoarthritis, cataracts, geriatric	IV	Fragile	Has lived with Punch and Doyle since 9 years of age	Has been with Doyle and Punch since 9 yo	27	AVERAGE
Redacted by agreement												27	
TOTONI	6007	M	01/29/94	25	Naïve		Severe cardiac disease, hx of cocci+ (2010); severe acute hepatic/renal disease 11/28/18	V	QOL, Very Fragile			18	AVERAGE
BAHN	4523	M	03/02/82	36	Exposed HBV/HCV		Severe cardiac disease, geriatric	V	QOL, Very Fragile	socially bonded to Kehg	Has been with Kehg since infancy	36	
KEHG	4540	M	04/30/82	36	Exposed HBV/HCV		Mild osteoarthritis, geriatric	III	Compromised	socially bonded to Bahn	Has been with Bahn since infancy	36	
CATHERINE	4015	F	12/17/79	39	Naïve		Mild osteoarthritis, SIB with stress, geriatric	IV	Fragile		Introduced to group in 2010	8	
TANYA	2354	F	01/01/69	50	Naïve		Moderate osteoarthritis, cataracts, renal disease, geriatric	IV	Fragile			14	
Redacted by agreement												22	AVERAGE
LACEY	3915	F	04/25/78	40	Other Exposure	RSV/Vaccinia	QOL, Type II uncontrolled diabetic, hypertension, renal disease, previous stroke, geriatric	V	QOL, Very Fragile	Mom of Allie	In group since 2014	5	AVERAGE
ROSIE	3459	F	12/27/74	44	Exposed HBV/HCV		Severe osteoarthritis, renal disease, mild cardiac disease, high anesthetic risk, geriatric	V	QOL, Very fragile		In group since 2008	11	
ALLIE	5540	F	04/24/89	29	Naïve		Stroke, Type I uncontrolled diabetic, cardiac disease, chronic UTIs	V	QOL, Very fragile	Daughter of Lacey	In group since 2008	11	
Redacted by agreement												9	AVERAGE
SABRINA	2167	F	01/01/68	51	Naïve		Mild cardiac disease, moderate osteoarthritis, uterine mass, heavy menstruations, geriatric	IV	Fragile		Raised together with Happy P in Phoenix zoo	48	AVERAGE
HAPPY P	1407	F	01/01/62	57	Exposed HBV/HCV		QOL, seizures, large uterine mass, recurrent UTIs, severe osteoarthritis, geriatric	V	QOL, Very fragile		Raised with Sabrina since Phoenix zoo; Has been	48	
Redacted by agreement												48	AVERAGE
Redacted by agreement													AVERAGE
PRISSY	2430	F	01/01/68	51	Exposed HBV/HCV		Previous stroke, unilateral paresis, osteoarthritis, geriatric	V	QOL, Very fragile		Introduced to group in 2015	4	
PEPPER	2106	F	01/01/67	52	Exposed HBV/HCV		Hx of epistaxis, moderate osteoarthritis, renal disease, STLV+, geriatric	IV	Fragile		Introduced to group in 2015	4	
KOBI	3020	M	01/01/72	47	Naïve		Pulmonary atelectasis, hx of pneumonia, high anesthetic risk, geriatric	V	QOL, Very fragile		with Quincy since 2010	9	
QUINCY	2721	F	01/01/71	48	Naïve		Extreme exercise intolerance, moderate osteoarthritis, high anesthetic risk, geriatric	V	QOL, Very fragile		with Kobi since 2010	9	
Redacted by agreement												7	AVERAGE
ENIGA	10245	F	04/30/85	33	Naïve		Mild anesthetic risk, small uterine mass	III	Compromised		Housed with Idani since 1990; dependent on Idani	28	AVERAGE
IDANI	5048	F	07/30/84	34	Naïve		Mild cardiac disease, hypertension	III	Compromised		Housed with Eniga since 1990; dependent on Eniga	28	
EHSTO	6174	M	10/06/95	23	Naïve			I	Healthy		Housed with Toton since 2000	18	
											Housed with Axel since 2009 and rest of group since 2010 but removed due to increased aggression with fragile health status group members	na	
HAAKID	5797	M	12/30/91	27	Other Exposure	monoclonal	Severe behavior that may restrict their integration into social groups, stifile osteoarthritis, anesthetic risk	IV	Fragile	New introduction to group in 2019		25	
Redacted by agreement													AVERAGE
AJAX	3912	M	04/18/78	40	Exposed HBV/other exposure	RSV/monoclonal	Difficulty socially integrating, mild cardiac disease, geriatric	IV	Fragile		Introduced to group in 2018 but lived across wire off and on from Joey since 1987	1	AVERAGE
NOWI	4716	M	05/12/83	35	Exposed HBV/HCV		Difficulty socially integrating and severe behavioral anxiety, mild anesthetic risk, geriatric	V	Very fragile		Introduced to group in 2018	1	
JOEY	3033	M	01/01/72	47	Other Exposure	PK study	Severe cardiac disease, severe thrombocytopenia, osteoarthritis, geriatric	V	QOL, Very fragile		Introduced to group in 2018	1	
												1	AVERAGE
