

Memorandum to: Tamara Deuser

From: Institutional Animal Care and Use Committee

Subject: Semiannual Report of the Program Review and Facility Inspection

Date: May 28, 2020

This report summarizes the IACUC's results of its most recent program review and facility inspection, as required by the Public Health Service (PHS) Policy on Humane Care and Use of Laboratory Animals ([Policy](#)), Section [IV.B.1.-3.](#), the *Guide for the Care and Use of Laboratory Animals* ([Guide](#)), and the Animal Welfare Act ([AWA](#)) regulations, as applicable. Submission of semiannual reports to the Institutional Official is a condition of this institution's Animal Welfare Assurance with the NIH Office of Laboratory Animal Welfare (OLAW).

Since the last review, the following changes have occurred in the institution's program for animal care and use (PHS Policy [IV.A.1.a.-i.](#)):

There were no changes to the program.

I. Description of the Nature and Extent of the Institution's Adherence to the PHS Policy, the *Guide*, and the AWA

Departures from the PHS Policy, the *Guide*, and the AWA.

Select A or B:

☐ A. There were no departures during this reporting period.

☒ B. The following departures have been reviewed and approved by the IACUC:

See attached IACUC Approved Deviations Report.

II. Deficiencies in the Institution's Animal Care and Use Program

Animal Care and Use Program Review Date(s): April 23, 2020

Select A or B:

☒ A. There were no deficiencies in the program during this reporting period.

☐ B. The following deficiencies have been identified:

III. Deficiencies in the Institution's Animal Facility

Animal Facility Inspection Date(s): 1/16/2020, 1/22/2020, 1/31/2020, 3/16/2020, 3/25/2020
Select A or B:

- ☐ A. There were no deficiencies in the animal facility during this reporting period.
☒ B. The following deficiencies have been identified:

See attached IACUC Inspection Findings Report. NOTE: An inspection waiver was granted by OLAW on March 29, 2020 for the remaining March and April 2020 inspections due to the COVID-19 pandemic.

IV. Minority Views

Select A or B:

- ☒ A. No minority views were submitted or expressed.
☐ B. The following minority views were expressed:

V. Status of AAALAC Accreditation

Fully accredited since November 16, 1990. Last accredited on July 31, 2018.

Protocol Number	Deviation Date	Deviation Type	Investigator	Species	Comments
20-1753R	19-Dec-19	Food/Water Restriction		Mice	What Restricted: Food Parameters: Mice will be fasted for 6 hours prior to assessment of lipid clearance, glucose tolerance, and insulin tolerance tests
20-1753R	19-Dec-19	Husbandry Deviation from the <i>Guide</i>		Mice	Single housing of male mice
20-1776R	23-Apr-20	Husbandry Deviation from the <i>Guide</i>		Rats	Single housing post-operatively for up to 48 hours for ovariectomies and up to 7 days for hysterectomies/ovariohysterectomies, as well as for unpairable animals as needed or following death of a cage mate. Single housed animals do not receive enrichment
20-1773R	23-Apr-20	Husbandry Deviation from the <i>Guide</i>		Mice, Rats, Chinchillas, Rabbits, Frogs, Basilisks	Single housing under certain circumstances (e.g., breeder males not actively breeding, lack of compatible cage-mates).
20-1768R	27-Feb-20	Food/Water Restriction		Snakes	What Restricted: Food Parameters: Fasting for 30 days prior to starting experiments. Standard feeding schedule is once every 2-6 weeks, so fasting will involve timing between normal feeding and initiation of study
20-1766R	03-Mar-20	Husbandry Deviation from the <i>Guide</i>		Mice	Single housing if necessary, for certain situations (e.g., fighting, lack of compatible cage mates).
20-1751R	21-Nov-19	Husbandry Deviation from the <i>Guide</i>		Mice	Single housing if necessary, for certain situations (e.g., fighting, treatment of clinical conditions, lack of compatible cage mates, etc.)
20-1769R	27-Feb-20	Husbandry Deviation from the <i>Guide</i>		Mice	NOD/SCID mice are immune-compromised and need sterile caging
20-1761R	29-Jan-20	Husbandry Deviation from the <i>Guide</i>		Mice	Single housing post-operatively for wound healing and renal transplant models, and as needed for other circumstances (e.g., breeder males not actively breeding, cage mate incompatibility)
20-1788R	23-Apr-20	Husbandry Deviation from the <i>Guide</i>		Rats	If pregnant females are obtained from vendor, animals will be housed singly prior to birth of the litter

20-1785R	23-Apr-20	Food/Water Restriction	[REDACTED]	Rats	What Restricted: Food Parameters: Progressive restriction to 2 hours of free food access/day for a maximum duration of 60 days. Rats that fall below 85% of their ad libitum feeding weight will be given 2 hours of extra feeding time per day and may be removed from the experiment until their weight has recovered.
20-1785R	23-Apr-20	Husbandry Deviation from the <i>Guide</i>	[REDACTED]	Rats	Single housing following implantation of jugular vein catheters, vascular access ports, or cranial implants or if a cage mate requires euthanasia
20-1785R	23-Apr-20	Multiple Major Surgeries	[REDACTED]	Rats	Implantation of optical fiber, ICSS electrode, or GRIN lens, infusion of virus, implantation of jugular vein catheter and vascular access port
20-1785R	23-Apr-20	Other	[REDACTED]	Rats	Maternal separation on postnatal days 2-14 to model the effects of early life stress
18-1637R	05-Mar-20	Husbandry Deviation from the <i>Guide</i>	[REDACTED]	Rats	Single housing following surgery to prevent removal of sutures, staples, or nanomaterial
20-1792R	23-Apr-20	Husbandry Deviation from the <i>Guide</i>	[REDACTED]	Rats	Pregnant females will be housed singly from arrival to terminal use shortly afterwards
20-1759T	19-Dec-19	Husbandry Deviation from the <i>Guide</i>	[REDACTED]	Mice	All subjects will be pair-housed in standard cages. However, it is possible that if an animal dies prematurely, its cage mate would be housed alone for the remainder of the experimental period. Daily husbandry will be done Monday - Friday, excluding holidays (not to exceed 3 consecutive days). On the day prior to any weekend day or holidays, a late afternoon check will be done on the animals.
20-1750R	21-Nov-19	Food/Water Restriction	[REDACTED]	Mice	Fed high-fat and high cholesterol diet to induce atherosclerosis for 2-16 weeks
20-1760R	19-Dec-19	Husbandry Deviation from the <i>Guide</i>	[REDACTED]	Dogs	Dogs will be singly housed at the shelter and likely at the foster homes as is standard shelter practice to avoid dog-dog conflicts

Inspection Date	Bldg	Room	PI(s)	Finding(s)	Date Notice Sent	Deadline for Correction	Date Returned with Signature	Response	Correction Completion Date

I. Semiannual Program Review Checklist ⁱ

Institutional Policies and Responsibilities

Date: April 23, 2020

1. Animal Care and Use Program		A*	M	S	C	NA
• Responsibility for animal well-being is assumed by all members of the program (<i>Guide, p 1</i>) [must]	X					
• IO has authority to allocate needed resources (<i>Guide, p 13</i>)	X					
• Resources necessary to manage program of veterinary care are provided (<i>Guide, p 14</i>) [must]	X					
• Sufficient resources are available to manage the program, including training of personnel in accord with regulations and the <i>Guide</i> (<i>Guide, pp 11, 15</i>)	X					
• Program needs are regularly communicated to IO by AV and/or IACUC (<i>Guide, p 13</i>)	X					
• Responsibilities for daily animal care and facility management are assigned to specific individual(s) when a full-time veterinarian is not available on site (<i>Guide, p 14</i>) [must]	X					
• Inter-institutional collaborations are described in formal written agreements (<i>Guide, p 15</i>)	X					
• Written agreements address responsibilities, animal ownership, and IACUC oversight (<i>Guide, p 15</i>)	X					
2. Disaster Planning and Emergency Preparedness		A*	M	S	C	NA
• Disaster plans for each facility to include satellite locations are in place (<i>Guide, p 35, p 75</i>) [must]	X					
• Plans include provisions for euthanasia (<i>Guide, p 35</i>) [must]	X					
• Plans include triage plans to meet institutional and investigators' needs (<i>Guide, p 35</i>)	X					
• Plans define actions to prevent animal injury or death due to HVAC or other failures (<i>Guide, p 35</i>)	X					
• Plans describe preservation of critical or irreplaceable animals (<i>Guide, p 35</i>)	X					
• Plans include essential personnel and their training (<i>Guide, p 35</i>)	X					
• Animal facility plans are approved by the institution and incorporated into overall response plan (<i>Guide, p 35</i>)	X					
• Law enforcement and emergency personnel are provided a copy and integration with overall plan is in place (<i>Guide, p 35</i>)	X					
3. IACUC		A*	M	S	C	NA
• Meets as necessary to fulfill responsibilities (<i>Guide, p 25</i>) [must]	X					
• IACUC Members named in protocols or with conflicts recuse themselves from protocol decisions (<i>Guide, p 26</i>) [must]	X					
• Continuing IACUC oversight after initial protocol approval is in place (<i>Guide, p 33</i>)	X					
• IACUC evaluates the effectiveness of training programs (<i>Guide, p 15</i>)	X					
4. IACUC Protocol Review - Special Considerations		A*	M	S	C	NA
• Humane endpoints are established for studies that involve tumor models, infectious diseases, vaccine challenge, pain modeling, trauma, production of monoclonal antibodies, assessment of toxicologic effects, organ or system failure, and models of cardiovascular shock (<i>Guide, p 27</i>)	X					
• For pilot studies, a system to communicate with the IACUC is in place (<i>Guide, p 28</i>)	X					
• For genetically modified animals, enhanced monitoring and reporting is in place (<i>Guide, p 28</i>)	X					
• Restraint devices are justified in the animal use protocols (<i>Guide, p 29</i>) [must]	X					
• Alternatives to physical restraint are considered (<i>Guide, p 29</i>)	X					
• Period of restraint is the minimum to meet scientific objectives (<i>Guide, p 29</i>)	X					
• Training of animals to adapt to restraint is provided (<i>Guide, p 29</i>)	X					
• Animals that fail to adapt are removed from study (<i>Guide, p 29</i>)	X					
• Appropriate observation intervals of restrained animals are provided (<i>Guide, p 29</i>)	X					
• Veterinary care is provided if lesions or illness result from restraint (<i>Guide, p 30</i>) [must]	X					
• Explanations of purpose and duration of restraint are provided to study personnel (<i>Guide, p 30</i>)	X					

• Multiple surgical procedures on a single animal are justified and outcomes evaluated (<i>Guide</i> , p 30)	X				
• Major versus minor surgical procedures are evaluated on a case-by-case basis (<i>Guide</i> , p 30)	X				
• Multiple survival procedure justifications in non-regulated species conform to regulated species standards (<i>Guide</i> , p 30)	X				
• Animals on food/fluid restriction are monitored to ensure nutritional needs are met (<i>Guide</i> , p 31)	X				
• Body weights for food/fluid restricted animals are recorded at least weekly (<i>Guide</i> , p 31)	X				
• Daily written records are maintained for food/fluid restricted animals (<i>Guide</i> , p 31)	X				
• Pharmaceutical grade chemicals are used , when available, for animal-related procedures (<i>Guide</i> , p 31)	X				
• Non-pharmaceutical grade chemicals are described, justified, and approved by IACUC (<i>Guide</i> , p 31)	X				
• Investigators conducting field studies know zoonotic diseases, safety issues, laws and regulations applicable in study area (<i>Guide</i> , p 32)	X				
• Disposition plans are considered for species removed from the wild (<i>Guide</i> , p 32)	X				
• Toe-clipping only used when no alternative, performed aseptically and with pain relief (<i>Guide</i> , p 75)	X				

5. IACUC Membership and Functions A* M S C NA

• IACUC is comprised of at least 5 members, appointed by CEO (PHS Policy, IV.A.3.)	X				
• Members include a veterinarian, a scientist, a nonscientist, and a nonaffiliated non-lab animal user (<i>Guide</i> , p 24) ⁱⁱ	X				
• IACUC authority and resources for oversight and evaluation of institution's program are provided (<i>Guide</i> , p 14)	X				
• IACUC conducts semiannual evaluations of institutional animal care and use program (PHS Policy, IV.B.)	X				
• Conducts semiannual inspections of institutional animal facilities (PHS Policy, IV.B.)	X				
• IACUC organizationally reports to the Institutional Official (PHS Policy, IV.A.1.b.)	X				
• Methods for reporting and investigating animal welfare concerns are in place (<i>Guide</i> , p 23) [must]	X				
• Reviews and investigates concerns about animal care and use at institution ⁱⁱⁱ (PHS Policy, IV.B.)	X				
• Procedures are in place for review, approval, and suspension of animal activities ^{iv} (PHS Policy, IV.B.)	X				
• Procedures are in place for review and approval of significant changes to approved activities (PHS Policy, IV.B.)	X				
• Policies are in place for special procedures (e.g., genetically modified animals, restraint, multiple survival surgery, food and fluid regulation, field investigations, agricultural animals) (<i>Guide</i> , p 27-32)	X				
• Requests for exemptions from major survival surgical procedure restrictions are made to USDA/APHIS ^v (<i>Guide</i> , p 30) [must]	X				

6. IACUC Training A* M S C NA

• All IACUC members should receive:					
◦ Formal orientation to institution's program (<i>Guide</i> , p 17)					
◦ Training on legislation, regulations, guidelines, and policies (<i>Guide</i> , p 17)	X				
◦ Training on how to inspect facilities and labs where animal use or housing occurs (<i>Guide</i> , p 17)	X				
◦ Training on how to review protocols as well as evaluate the program (<i>Guide</i> , p 17)	X				
◦ Ongoing training/education (<i>Guide</i> , p 17)	X				

7. IACUC Records and Reporting Requirements^{vi} A* M S C NA

• Semiannual report to the IO (PHS Policy, IV.B.)					
◦ Submitted to IO every 6 months	X				
◦ Compiles program review and facility inspection(s) results (includes all program and facility deficiencies)	X				
◦ Includes minority IACUC views	X				
◦ Describes IACUC-approved departures from the <i>Guide</i> or PHS Policy and the	X				

reasons for each departure ^{vii}					
o Distinguishes significant from minor deficiencies	X				
o Includes a plan and schedule for correction for each deficiency identified ^{viii}	X				
• Reports to OLAW (PHS Policy, IV.E.)					
o Annual report to OLAW documents program changes, dates of the semiannual program reviews and facility inspections and includes any minority views	X				
o Promptly advises OLAW of serious/ongoing <i>Guide</i> deviations or PHS Policy noncompliance (NOT-OD-05-034)	X				
o Institute must promptly advise OLAW of any suspension of an animal activity by the IACUC (NOT-OD-05-034)	X				
• Reports to U.S. Department of Agriculture (USDA) or Federal funding agency ^{ix}					
o Annual report to USDA contains required information including all exceptions/exemptions	X				
o Reporting mechanism to USDA is in place for IACUC-approved exceptions to the regulations and standards	X				
o Reports are filed within 15 days for failures to adhere to timetable for correction of significant deficiencies	X				
o Promptly reports suspensions of activities by the IACUC to USDA and any Federal funding agency	X				
• Records (PHS Policy, IV.E.)					
o IACUC meeting minutes and semiannual reports to the IO are maintained for 3 years	X				
o Records of IACUC reviews of animal activities include all required information ^x	X				
o Records of IACUC reviews are maintained for 3 years after the completion of the study	X				

8. Veterinary Care (See also next section - Veterinary Care)

	A*	M	S	C	NA
• An arrangement for veterinarian(s) with training or experience in lab animal medicine is in place including backup veterinary care ^{xi}	X				
• Veterinary access to all animals is provided (<i>Guide</i> , p 14) [must]	X				
• Direct or delegated authority is given to the veterinarian to oversee all aspects of animal care and use (<i>Guide</i> , p 14) [must]	X				
• Veterinarian provides consultation when pain and distress exceeds anticipated level in protocol (<i>Guide</i> , p 5) [must]	X				
• Veterinarian provides consultation when interventional control is not possible (<i>Guide</i> , p 5) [must]	X				
• If part time /consulting veterinarian, visits meet programmatic needs (<i>Guide</i> , p 14)	X				
• Regular communication occurs between veterinarian and IACUC (<i>Guide</i> , p 14)	X				
• Veterinarian(s) have experience and training in species used (<i>Guide</i> , p 15) [must]	X				
• Veterinarian(s) have experience in facility administration/management (<i>Guide</i> , p 15)	X				

9. Personnel Qualifications and Training

	A*	M	S	C	NA
• All personnel are adequately educated, trained, and/or qualified in basic principles of laboratory animal science. Personnel included: [must]					
o Veterinary/other professional staff (<i>Guide</i> , p 15-16)	X				
o IACUC members (<i>Guide</i> , p 17)	X				
o Animal care personnel (<i>Guide</i> , p 16)	X				
o Research investigators, instructors, technicians, trainees, and students (<i>Guide</i> , pp 16-17)	X				
• Continuing education for program and research staff provided to ensure high quality care and reinforce training (<i>Guide</i> , pp 16-17)	X				
• Training is available prior to starting animal activity (<i>Guide</i> , p 17)	X				
• Training is documented (<i>Guide</i> , p 15)	X				
• Training program content includes: (<i>Guide</i> , p 17)					
o Methods for reporting concerns (<i>Guide</i> , p 17)	X				
o Humane practices of animal care (e.g., housing, husbandry, handling) ^{xii}	X				
o Humane practices of animal use (e.g., research procedures, use of anesthesia, pre- and post-operative care, aseptic surgical techniques and euthanasia (<i>Guide</i> , p 17) ^{xiii}	X				
o Research/testing methods that minimize numbers necessary to obtain valid results	X				

(PHS Policy, IV.A.1.g.)					
○ Research/testing methods that minimize animal pain or distress (PHS Policy, IV.A.1.g.)	X				
○ Use of hazardous agents, including access to OSHA chemical hazard notices where applicable (<i>Guide</i> , p 20)	X				
○ Animal care and use legislation (<i>Guide</i> , p 17)	X				
○ IACUC function (<i>Guide</i> , p 17)	X				
○ Ethics of animal use and Three R's (<i>Guide</i> , p 17)	X				

10. Occupational Health and Safety of Personnel A* M S C NA

• Program is in place and is consistent with federal, state, and local regulations (<i>Guide</i> , p 17) [must]	X				
• Program covers <i>all</i> personnel who work in laboratory animal facilities (<i>Guide</i> , p 18)	X				
• Changing, washing, and showering facilities are available as appropriate (<i>Guide</i> , p 19)	X				
• Hazardous facilities are separated from other areas and identified as limited access (<i>Guide</i> , p 19)	X				
• Personnel training is provided based on risk (e.g., zoonoses, hazards, personal hygiene, special precautions, animal allergies) (<i>Guide</i> , p 20)	X				
• Personal hygiene procedures are in place (e.g., work clothing, eating/drinking/smoking policies) (<i>Guide</i> , p 20)	X				
• Procedures for use, storage, and disposal of hazardous biologic, chemical, and physical agents are in place (<i>Guide</i> , p 21)	X				
• Personal Protective Equipment for the work area is appropriate and available (<i>Guide</i> , p 21)	X				
• Program for medical evaluation and preventive medicine for personnel includes:					
○ Pre-employment evaluation including health history (<i>Guide</i> , p 22)	X				
○ Immunizations as appropriate (e.g., rabies, tetanus) and tests as appropriate (<i>Guide</i> , p 22)	X				
○ Zoonosis surveillance as appropriate (e.g., Q-fever, tularemia, Hantavirus, plague) (<i>Guide</i> , p 23)	X				
○ Procedures for reporting and treating injuries, including accidents, bites, allergies, etc. (<i>Guide</i> , p 23)	X				
○ Promotes early diagnosis of allergies including preexisting conditions (<i>Guide</i> , p 22)	X				
○ Considers confidentiality and other legal factors as required by federal, state and local regulations (<i>Guide</i> , p 22) [must]	X				
○ If serum samples are collected, the purpose is consistent with federal and state laws (<i>Guide</i> , p 22) [must]	X				
• Waste anesthetic gases are scavenged (<i>Guide</i> , p 21)	X				
• Hearing protection is provided in high noise areas (<i>Guide</i> , p 22)	X				
• Respiratory protection is available when performing airborne particulate work (<i>Guide</i> , p 22)	X				
• Special precautions for personnel who work with nonhuman primates, their tissues or body fluids include:					
○ Tuberculosis screening provided for all exposed personnel (<i>Guide</i> , p 23)	X				
○ Training and implementation of procedures for bites, scratches, or injuries associated with macaques (<i>Guide</i> , p 23)	X				
○ PPE is provided including gloves, arm protection, face masks, face shields, or goggles (<i>Guide</i> , p 21)	X				
○ Injuries associated with macaques are carefully evaluated and treatment implemented (<i>Guide</i> , p 23)	X				
• Occupational safety and health of field studies is reviewed by OSH committee or office (<i>Guide</i> , p 32)	X				

11. Personnel Security A* M S C NA

• Preventive measures in place include pre-employment screening, and physical and IT security (<i>Guide</i> , p 23)	X				
---	---	--	--	--	--

12. Investigating & Reporting Animal Welfare Concerns A* M S C NA

• Methods for investigating and reporting animal welfare concerns are established (<i>Guide</i> , p 23) [must]	X				
• Reported concerns and corrective actions are documented (<i>Guide</i> , p 24)	X				

• Mechanisms for reporting concerns are posted in facility and at applicable website with instructions (<i>Guide</i> , p 24)	X				
○ Includes multiple contacts (<i>Guide</i> , p 24)	X				
○ Includes anonymity, whistle blower policy, nondiscrimination and reprisal protection (<i>Guide</i> , p 24)	X				

* **A** = acceptable

M = minor deficiency

S = significant deficiency (is or may be a threat to animal health or safety)

C = change in program (PHS Policy [IV.A.1.a.-i.](#)) (include in semiannual report to IO and in annual report to OLAW)

NA = not applicable

NOTES:

Veterinary Care

Date: April 23, 2020

1. Clinical Care and Management	A*	M	S	C	NA
<ul style="list-style-type: none"> Veterinary program offers high quality of care and ethical standards (<i>Guide, p 105</i>) [must] 	X				
<ul style="list-style-type: none"> Veterinarian provides guidance to all personnel to ensure appropriate husbandry, handling, treatment, anesthesia, analgesia, and euthanasia (<i>Guide, p 106</i>) 	X

<ul style="list-style-type: none"> Veterinarian is authorized to treat, relieve pain, and/or euthanize (<i>Guide, p 114</i>) [must] 	X				
2. Animal Procurement and Transportation/Preventive Medicine	A*	M	S	C	NA
<ul style="list-style-type: none"> Procedures for lawful animal procurement are in place (<i>Guide, p 106</i>) [must] 	X				
<ul style="list-style-type: none"> Sufficient facilities and expertise are confirmed prior to procurement (<i>Guide, p 106</i>) 	X				
<ul style="list-style-type: none"> Procurement is linked to IACUC review and approval (<i>Guide, p 106</i>) 	X				
<ul style="list-style-type: none"> Random source dogs and cats are inspected for identification (<i>Guide, p 106</i>) 	X				
<ul style="list-style-type: none"> Population status of wildlife species is considered prior to procurement (<i>Guide, p 106</i>) 	X				
<ul style="list-style-type: none"> Appropriate records are maintained on animal acquisition (<i>Guide, p 106</i>) 	X				
<ul style="list-style-type: none"> Animal vendors are evaluated to meet program needs and quality (<i>Guide, p 106</i>) 	X				
<ul style="list-style-type: none"> Breeding colonies are based on need and managed to minimize numbers (<i>Guide, p 107</i>) 	X				
<ul style="list-style-type: none"> Procedures for compliance with animal transportation regulations, including international requirements, are in place (<i>Guide, p 107</i>) [must] 	X				
<ul style="list-style-type: none"> Transportation is planned to ensure safety, security and minimize risk (<i>Guide, p 107</i>) 	X				
<ul style="list-style-type: none"> Movement of animals is planned to minimize transit time and deliveries are planned to ensure receiving personnel are available (<i>Guide, pp 107- 108</i>) 	X				
<ul style="list-style-type: none"> Appropriate loading and unloading facilities are available (<i>Guide, p 109</i>) 	X				
<ul style="list-style-type: none"> Environment at receiving site is appropriate (<i>Guide, p 109</i>) 	X				
<ul style="list-style-type: none"> Policies in place on separation by species, source, and health status (<i>Guide, pp 109, 111-112</i>) 	X				
<ul style="list-style-type: none"> Procedures in place for quarantine to include zoonoses prevention (<i>Guide, p 110</i>) 	X				
<ul style="list-style-type: none"> Quarantined animals from different shipments are handled separately or physically separated (<i>Guide, p 110</i>) 	X				
<ul style="list-style-type: none"> Procedures in place for stabilization/acclimation (<i>Guide, pp 110-111</i>) 	X				
<ul style="list-style-type: none"> Policies in place for isolation of sick animals (<i>Guide, p 112</i>) 	X				
<ul style="list-style-type: none"> Program is in place for surveillance, diagnosis, treatment and control of disease to include daily observation (<i>Guide, p 112</i>) 	X				
<ul style="list-style-type: none"> Diagnostic resources are available for preventive health program (<i>Guide, p 112</i>) 	X				
3. Surgery	A*	M	S	C	NA
<ul style="list-style-type: none"> Surgical outcomes are assessed and corrective changes instituted (<i>Guide, p 115</i>) 	X				
<ul style="list-style-type: none"> Researchers have appropriate training to ensure good technique (<i>Guide, p 115</i>) [must] 	X				
<ul style="list-style-type: none"> Pre-surgical plans are developed and include veterinary input (e.g., location, supplies, 	X				

anesthetic and analgesic use, peri-operative care, recordkeeping) (<i>Guide</i> , p 116)					
• Aseptic surgery is conducted in dedicated facilities or spaces, unless exception justified and IACUC approved (<i>Guide</i> , p 116)	X				
• Surgical procedures including laparoscopic procedures are categorized as major or minor (<i>Guide</i> , pp 117-118)	X				
• For nonsurvival surgery, the site is clipped, gloves are worn and instruments and area are clean (<i>Guide</i> , p 118)	X				
• Aseptic technique is followed for survival surgical procedures (<i>Guide</i> , pp 118-119)	X				
• Effective procedures for sterilizing instruments and monitoring expiration dates on sterile packs are in place (<i>Guide</i> , p 119)	X				
• Procedures for monitoring surgical anesthesia and analgesia are in place (<i>Guide</i> , p 119)	X				
• For aquatic species, skin surfaces are kept moist during surgical procedures (<i>Guide</i> , p 119)	X				
• Post-operative monitoring and care are provided by trained personnel and documented (e.g., thermoregulation, physiologic function, analgesia, infection, removal of skin closures) (<i>Guide</i> , pp 119-120)	X				

4. Pain, Distress, Anesthesia and Analgesia A* M S C NA

• Guidelines for assessment and categorization of pain, distress and animal wellbeing are provided during training (<i>Guide</i> , p 121)	X				
• Selection of analgesics and anesthetics is based on professional veterinary judgment (<i>Guide</i> , p 121)	X				
• Painful procedures are monitored to ensure appropriate analgesic management (<i>Guide</i> , p 122)	X				
• Nonpharmacologic control of pain is considered as an element of postprocedural care (<i>Guide</i> , p 122)	X				
• Procedures are in place to assure antinociception before surgery begins (<i>Guide</i> , p 122) [must]	X				
• Guidelines for selection and use of analgesics and anesthetics are in place and regularly reviewed and updated (<i>Guide</i> , p 122)	X				
• Special precautions for the use of paralytics are in place to ensure anesthesia ^{xiv} (<i>Guide</i> , p 123)					X

5. Euthanasia A* M S C NA

• Methods are consistent with AVMA Guidelines on Euthanasia unless approved by the IACUC (<i>Guide</i> , p 123)	X				
• Standardized methods are developed and approved by the veterinarian and IACUC that avoid distress and consider animal age and species (<i>Guide</i> , pp 123-124)	X				
• Training is provided on appropriate methods for each species and considers psychological stress to personnel (<i>Guide</i> , p 124)	X				
• Procedures and training are in place to ensure death is confirmed (<i>Guide</i> , p 124) [must]	X				

6. Drug Storage and Control A* M S C NA

• Program complies with federal regulations for human and veterinary drugs(<i>Guide</i> , p 115) [must]	X				
• Drug records and storage procedures are reviewed during facility inspections (<i>Guide</i> , p 115)	X				
• Procedures are in place to ensure analgesics and anesthetics are used within expiration date (<i>Guide</i> , p 122) [must]	X				
• Anesthetics and analgesics are acquired, stored, and their use and disposal are recorded legally and safely (<i>Guide</i> , p 122)	X				

* **A** = acceptable

M = minor deficiency

S = significant deficiency (is or may be a threat to animal health or safety)

C = change in program (PHS Policy [IV.A.1.a.-i.](#)) (include in semiannual report to IO and in annual report to OLAW)

NA = not applicable

III. Endnotes

ⁱ The PHS Policy requires that Assured institutions comply with the regulations (9 CFR, Subchapter A) issued by the U.S. Department of Agriculture (USDA) under the Animal Welfare Act, as applicable. The endnotes below are specific USDA regulatory requirements that differ from or are in addition to the PHS Policy. This list is not intended to be all inclusive. For additional information please refer to 9 CFR Subchapter A - Animal Welfare.

ⁱⁱ Part 2 Subpart C - Research Facilities

- 2.31(b)(2) - "The Committee shall be composed of a Chairman and at least two additional members;... at least one shall not be affiliated in any way with the facility...such person will provide representation for general community interests in the proper care and treatment of animals." [PHS policy requires 5 members]

ⁱⁱⁱ 2.32(c)(4) - "...No facility employee, Committee member, or laboratory personnel shall be discriminated against or be subject to any reprisal for reporting violations of any regulation or standards under the Act." [USDA requirement additional to PHS Policy]

^{iv} 2.31(d)(5) - "...shall conduct continuing reviews of activities...not less than annually." [PHS Policy requires a complete new review every 3 years utilizing all the criteria for initial review]

^v 2.31(d)(1)(x) - "...no animal will be used in more than one major operative procedure from which it is allowed to recover unless...(it is) justified for scientific reasons...(or is) required as routine veterinary procedure...or other special

circumstances as determined by the Administrator on an individual basis.” [this last point is an additional USDA justification for multiple survival surgeries]

^{vi} 2.36 - “...each reporting facility shall submit an annual report to the APHIS, AC sector supervisor for the State where the facility is located on or before December 1 of each calendar year.” [The USDA annual report has a list of requirements which differ from PHS annual report]

^{vii} 2.36(b)(3) - “...exceptions to the standards and regulations be specified and explained by the principal investigator and approved by the IACUC. A summary of all such exceptions must be attached to the facility’s annual report.” [Refers to USDA annual report]

^{viii} 2.31(c)(3) - “...Any failure to adhere to the plan and schedule that results in a significant deficiency remaining uncorrected shall be reported in writing within 15 business days by the IACUC, through the institutional official, to APHIS and any Federal agency funding that activity.” [PHS Policy requires prompt reporting to OPRR of serious or continuing noncompliance with the PHS Policy or serious deviations from the provisions of the *Guide*]

^{ix} 2.36 - “...each reporting facility shall submit an annual report to the APHIS, AC sector supervisor for the State where the facility is located on or before December 1 of each calendar year.” [The USDA annual report has a list of requirements which differ from PHS annual report]

^x In addition to PHS requirements for IACUC review/application for funding, USDA regulations require:

2.31(d)(1)(ii) - “The principal investigator (PI) consider alternatives to procedures that cause more than momentary or slight pain or distress to the animals, and has provided a written narrative description of the methods and sources...used to determine that alternatives were not available.”

2.31(d)(1)(iii) - “The PI has provided written assurance that the activities do not unnecessarily duplicate previous experiments.”

2.31(d)(1)(iv) - “Procedures that may cause more than momentary or slight pain or distress to the animals will:
- involve in their planning, consultation with the attending veterinarian or his or her designee; [PHS Policy does not specify veterinary consultation]
- not include paralytics without the use of anesthesia;”

2.31(d)(1)(x) - “No animal will be used in more than one major operative procedure from which it is allowed to recover, unless justified for scientific reasons by the principal investigator, in writing...”

^{xi} 2.33(a)(1) - “In the case of a part-time attending veterinarian or consultant arrangements, the formal arrangements shall include a written program of veterinary care and regularly scheduled visits to the research facility.” [USDA requirement additional]

^{xii} 2.32(c) - “Humane methods of animal maintenance and experimentation, including the basic needs of each species, proper handling and care for the various species of animals used by the facility, proper pre-procedural and post-procedural care of animals, and aseptic surgical methods and procedures.”

^{xiii} 2.32(c) - additional specifications include:

- “proper use of anesthetics, analgesics, and tranquilizers for any species of animals used by the facility”
- “methods whereby deficiencies in animal care and treatment are reported, including deficiencies in animal care and treatment reported by any employee of the facility...”
- “utilization of services (e.g., National Agricultural Library, National Library of Medicine) to provide information on appropriate animal care and use, alternatives to the use of live animals in research, that could prevent unintended and unnecessary duplication of research involving animals, and regarding the intent and requirements of the Act.” [USDA training specifications are more detailed than PHS Policy].

^{xiv} 2.31(d)(iv)(C) - “Procedures that may cause more than momentary or slight pain or distress to the animals will...not include the use of paralytics without anesthesia.”
