Dr. Betty Goldentyer
USDA-APHIS-Animal Care
2150 Centre Avenue
Building B, 3W11
Fort Collins, CO 80526

Dear Dr. Betty Goldentyer,

This letter is to inform APHIS-Animal Care that the site of the Pharmgate Biologics Inc. animal facilities, previously located at (b) (6), (b) (7)(C)

(b) (6), (b) (7)(C) has been relocated to a new facility, located at (b) (6), (b) (7)(C). Pharmgate's QC lab moved to this new suite to allow for our current production capabilities to be increased as well as to expand our clean room area and thus, the animal room was moved to the QC suite. The animals were officially moved last week. This letter is being sent today to comply with the 10-day time frame of the change occurring.

Please contact me at (b) (6), (b) (7)(C) if you need any additional information or if you have any further questions.

Sincerely,

(b) (6), (b) (7)(C)
