---

I have submitted our annual report. I was unable to add "other" animals to animal usage table. I uploaded the APHIS Form 7023 that has the actual animal usage numbers included.

Also, our organization's name has changed. I previously informed USDA, but did not see a change when I entered information into the annual report site. Please update our organization information to the following:

U.S. Army Health Readiness Center of Excellence  
ATTN: Office of the Commandant/Animal Care and Use Office  
3630 Stanley Road  
JBSA-Fort Sam Houston, TX 78234

Thank you.
