B. APPROVAL OF MINUTES OF PREVIOUS MEETING

Presentation and review of the meeting minutes of May 8, 2019.

Action: The IACUC approved the meeting minutes as written.

C. REPORT FROM THE CHAIR

C.1. IACUC Training

Lab Animal: Volume 48, June 2019: Maintaining balance: what (dis)qualifies a nonaffiliated IACUC candidate?

C.2. Reports

IACUC Subcommittee Meeting Summary: Easing Administrative Burden on Researchers

A member requested that a link to submit a database search request be added to the animal protocol form. The OAWA Director agreed to add a link, but confirmed after the meeting that this link was already available.

Protocol Expirations: No issues to discuss.

D. DCM REPORT

18-093

The IACUC agreed with the PI's invitation for the AV and designees to train the PI and her staff on appropriate animal handling procedures.

June 2019

18-006

A guinea pig died on 06/06/2019, shortly after anesthetic recovery from an uncomplicated procedure. The AV required the PI to undergo additional training on animal monitoring during and after anesthesia. The IACUC agreed with the AV's plan and requested to be notified if additional complications occur.

18-108

The AV notified the PI of appropriate standards for PPE in the animal facility and when working with animals. The PI agreed to adhere to follow these standards. The IACUC agreed with the AV's position and decided not take additional action at this time.

D. DCM REPORT

September 2019

Two USDA veterinary medical officers visited the University on 08/20/2019 to perform a routine, focused inspection of the animal program. The officers concluded their visit in the afternoon, and no non-compliant items were identified during the inspection.

The HVAC to a small animal facility was found not to be connected to a back-up generator. DCM is exploring options to permanently move all animals to other facilities on campus as a preventive measure.

Satellite Facility: 17-046, 17-050, 17-073, 18-044

On 08/27/2019, fish were found dead due to a husbandry error. DCM responded by initiating direct oversight of the satellite facility.

Action: the IACUC determined no additional actions necessary at this time.

Goat Vendor

DCM will evaluate a local farm as a potential vendor for acquiring goats needed for upcoming research studies. Evaluation will include health surveillance practices, bioexclusion criteria, general animal welfare practices, etc.

Action: The IACUC was supportive of DCM exploring the use of local vendors for research animals.

C. REPORT FROM THE CHAIR

C.1. IACUC Training

Lab Animal Protocol Review: Volume 48, October 2019: Pressure's on: is it time to move ahead with nonhuman primates?

Lab Animal Comment: Volume 48, October 2019: When power calculations won't do: Fermi approximation of animal numbers

C.2. Reports

Protocol Expiration Report

16-114 expired on 09/19/2019. Animals were transferred to Holding on 09/20/2019.

16-120 expired on 09/25/2019. Animals were transferred to Holding on 09/24/2019.

16-128 expired on 09/25/2019. Animals were transferred to Holding on 09/24/2019.

Use of embryonated egg cultures to grow influenza

The Committee generally agreed to handle these activities on a case-by-case basis, and to use the AUP form as the formal communication tool for PIs to describe embryonated egg use and euthanasia procedures in the event that accidental hatching occurs.

19-063-SEAH

October 2019

A summary of unanticipated events was described to the IACUC by the OAWA Director. The DCM Director expressed training concerns regarding the research personnel, but noted that these have sufficiently been addressed.

Action: The IACUC determined no actions necessary at this time.

19-064-APHU

The OAWA Director summarized a preliminary evaluation to the IACUC. Concerns regarding protocol compliance and animal well-being were expressed.

Action: The IACUC temporarily paused all experimental animal activities until a subcommittee of the IACUC could investigate. The PI was notified of the IACUC's decision by phone call on 10/09/2019.

Animal census tracking

Action: The IACUC supports DCM's proposed processes to improve communications on animal acquisition and census in a satellite facility. The IACUC requested a memo be sent to the [REDACTED] facility manager and director of research to communicate its decision. The memo was emailed to the [REDACTED] facility manager and director of research on 10/10/2019.

D. DCM REPORT

DCM reported the death of a baboon on 09/16/2019. Gross necropsy and histology provided a diagnosis of myocardial infarction not related to study procedures.

Action: The IACUC determined no actions necessary at this time.

B. APPROVAL OF MINUTES OF PREVIOUS MEETING

Presentation and review of the meeting minutes of October 9, 2019.

Action: The IACUC approved the meeting minutes as written.

C. REPORT FROM THE CHAIR

C.1. IACUC Training

Lab Animal Protocol Review: Volume 48, November 2019: Cardiac surgeon wanted: mouse experience required?

FDP Webinar 10/09/2019: Agreements between Collaborating Institutions Using Vertebrate Animals

NABR Webinar 10/29/2019: Cautionary Tails: FOIA and Other Threats to Sustainability of Animal Research

C.2. Reports

CDS Disposal Update

Animal Census Tracking Update

19-057-EFCHI

On 10/25/2019, the Chair received a concern about the euthanasia of neonatal mice. The PI agreed to alter the method of euthanasia for neonatal mice. The PI also agreed for Protocol Associates to receive re-training on euthanasia by the facility manager.

Action: The IACUC determined that no additional actions were necessary.

18-003-IAU

November 2019

On 10/31/2019, the PI notified the OAWA Dir. of an accidental live birth that occurred under this AUP.
Action: The IACUC determined that no additional actions were necessary.

UPDATE: 19-064-APHU

Subcommittee met on 10/23/2019; amendment approved on 11/01/2019 and the Pause was lifted on the same date.
The research team will continue to work under direct DCM oversight until the AV confirms the team is qualified to work independently.
Action: The IACUC asked to verbally report the unanticipated rabbit death to OLAW. The OAWA Director contacted an OLAW representative in accordance with the IACUC's request on 11/15/2019.

18-092-HI

Routine PAM visit on 10/30/2019 revealed deviation from approved AUP. The OAWA Director issues a temporary pause in activities after learning the PI continued to perform procedures on animals without updating the AUP. A subcommittee of the IACUC met on 11/08/2019. The OAWA Dir. lifted the pause with approval of the amendment on 11/11/2019.
Action: The IACUC confirmed that all suggestions from the PAM visit had been addressed. The IACUC asked OAWA to perform a subsequent PAM visit in approximately 2 months. The PI was notified of the IACUC's decision on 11/13/2019.

Action: The IACUC approved the meeting minutes as written.

C. REPORT FROM THE CHAIR

C.1. IACUC Training

ILAR Journal, 2019, Vol. 00, No. 00, 1-7: The Role of IACUC's in Responsible Animal Research

12/05/2019: OLAW Online Seminar "21st Century Cures Act – Next Steps"

C.2. Reports

UPDATE: 19-064-APHU

The research team continues to work under direct supervision of DCM. The AV authorized the team to perform non-invasive procedures independently starting the week of 11/18/2019.

Action: The IACUC determined no additional actions were necessary.

Animal Activities at Another Institution

19-019-SAFCHI

The research team initiated an experiment that was not fully described in the AUP. Several animals were euthanized by DCM veterinary staff for humane reasons. The OAWA Director met with the PI on 12/05/2019, and the PI agreed to halt this line of experimentation until an amendment could be reviewed and approved by the IACUC.

Action: The IACUC determined no additional actions were necessary.

December 2019

Protocol Expiration Report

Nothing to report.

D. DCM REPORT

Helicobacter-positive mice can be housed in quarantine for up to 6 months. Animals may then need to be rederived in order to move a positive colony into the facility.

UPDATE: Renovation of Animal Facility
