

APHIS Form 7023 Site Addendum for FY:

Registration Number: 93-V-0007

Customer ID Number: 1326

Facility Business Address Information: VA Medical Center #600
5901 East 7th St. 09/151
Long Beach, CA 90822

Telephone: 562-826-5801

Facilities Site(s) Address Information:

Site Codes:

Cat. E - 47 mice used to generate xenograft models and test drugs using a panel of MCC cell lines; cancer research requires continuation until clinical symptoms are evident to best study disease state and drug response.

128 mice were used in SCD pain studies; administration of analgesics, beyond study substances being tested, would invalidate study conclusions.

87 mice were used for induction of inflammatory conditions in GI tract; because of need to quantify improvement in the treatment group pain cannot be relieved.
