Hello,

Thankyou for your quick response,

I completely understand as we are experiencing effects of this "situation" as well and are doing our best to maintain operations and service to our clients.

Our IO did recently send in the renewal, so it is very possible that this has not been received/processed yet.

I will ask that this be re-sent just in case.

Again, many thanks for your understanding...

Good morning,

Thank you for your email requesting information about Product Safety Labs, USDA registered facility 22-R-0143, customer number 44516, registration certificate. I'd like to reassure you that this registration is still **active** and will remain so in the short term due to challenges associated with the circumstances around COVID; however, it expired 10/1/2020 and after looking into your registration certificate, we could not find a submission for renewal of your registration in 2020. This may be a delay in our processing it or it may not have been received by USDA as we have had intermittent access to mail and our facilities at points during this year. With this in mind, I apologize for any inconvenience but could you please provide the renewal again. If you have copies of the original submission, that will work or find the form included as an attachment if it is needed. If possible, the best and most expedient way to have it processed would be to submit electronically to AnimalCare@usda.gov and we will get your registration certificate issued. Thank you.

If you have any questions, please feel free to contact USDA Animal Care at (970) 494-7478.

Sincerely,

Program Support

Hello,

I am the IACUC chair for Product Safety Labs, USDA registered facility 22-R-0143, customer number 44516.

I am inquiring about our certification, which was renewed this year.

We have not yet received a certificate confirming our registration, would it be possible to have this sent to us so we may share it with our clients?

Please let me know if any additional information is needed, I have copied the IO Dan Merkel as he is the contact on file for the facility.

Best Regards
