

Inspection Report

North Carolina A&T State University
Lab. Animal Resource Unit
116 Webb Hall
Greensboro, NC 27411

Customer ID: **813**

Certificate: **55-R-0022**

Site: 001

NORTH CAROLINA A&T STATE UNIVERSITY

Type: ROUTINE INSPECTION

Date: 18-APR-2017

3.31(a)(1) REPEAT

SANITATION.

Wet, matted, heavily soiled litter covered the floors of 4 of 8 enclosures of guinea pigs. The floors of the remaining 4 enclosures had heavy fecal build-up. Wet, soiled litter can result in foot and respiratory infections which compromises the health of the animals. Per this section, primary enclosures shall be cleaned and sanitized often enough to prevent an accumulation of excreta or debris, provided, however, that such enclosures shall be sanitized at least once every 2 weeks in the manner provided in paragraph (a) (4) of this section.

This inspection and exit interview were conducted with the facility representative.
