Utah State University  
V.P. For Research/1450 Old Main Hill  
Logan, UT 84322

Customer ID: 2  
Certificate: 87-R-0002  
Site: 001  
UTAH STATE UNIVERSITY

Type: ROUTINE INSPECTION  
Date: 07-SEP-2017

### 2.33(b)(2)

#### ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE.

Two bottles of Heparin (one partially used, one unopened) and one partially used tube of Puralube eye lubrication ointment were found in room 140 at ATRC building that were expired (06/2017 and 05/2016 respectively). In the refrigerator in the Stallion Barn lab area, a syringe containing a white liquid was unlabeled and undated. Liquids in unlabeled syringes are not identifiable and may be incorrectly administered or improperly used. Expired medications may have compromised efficacy and potency. Use of unlabeled medication or expired drugs may be harmful or lead to untoward effects or inadequate treatment. The facility needs to ensure that medications are stored and labeled properly and are not being used past their expiration date. Corrected at time of inspection.

This inspection and exit interview were conducted with facility representatives.

#### Additional Inspectors

Secor Thomas, Veterinary Medical Officer
