BURLINGAME, CA 94010

Customer ID: 1288

Certificate: 93-R-0382

Site: 002

PHOENIX PHARMACEUTICALS,
INC.

Type: ROUTINE INSPECTION

Date: 22-JUL-2021

2.31(c)(3)

Institutional Animal Care and Use Committee (IACUC).

The facility's Institutional Animal Care and Use Committee (IACUC) is not conducting Semi Annual Program Reviews in the manner required. The facility provided a document from September 15, 2020, where the Attending Veterinarian provided some brief notes of observations from a facility inspection and program review, however in April the Attending Veterinarian was not invited to participate. The facility stated that they were unwilling to pay her to participate in the facility inspection twice a year. In a conversation with the Attending Veterinarian on 7/23/2021 the lead inspector learned that the Attending Veterinarian had not been given the opportunity to participate, even virtually or remotely by phone, in the April Semi Annual Review, and was unaware of any findings at that time. And rather than a report to the Institutional Official regarding the Semi Annual Review findings there was only a brief notation that a facility inspection and program review had been completed.

The facility must ensure that all IACUC members are invited to participate in the Semi Annual Reviews, and that all who wish to participate are allowed to do so. The facility must ensure that the IACUC reviews the physical facility as well as the overall program of animal use, and any deficiencies noted, whether minor or significant, should be reported to the Institutional Official along with a schedule for corrections. This report should be signed by a majority of the IACUC
