PROGRAM OF VETERINARY CARE

INSTRUCTIONS

For use of this form, see 9 CFR 2.40 (Animal Welfare Regulations, Title 9, Subchapter A, Part III, Subpart D, Section 2.40)

The attending veterinarian shall establish, maintain, and supervise programs of disease control and prevention, pest and parasite control, pre-procedural and post-procedural care, nutrition, euthanasia, and adequate veterinary care for all animals on the premises of the licensee/registrant. A written program of adequate veterinary care between the licensee/registrant and the doctor of veterinary medicine shall be established. By law, such programs must include regularly scheduled visits to the premises by the veterinarian. Scheduled visits are required to monitor animal health and husbandry.

This optional form or an equivalent format may be used to meet the requirement for a written Program of Veterinary Care. This form may be used as a guideline for developing and writing the veterinary care plan for your animals.

Pages or blocks which do not apply to the facility should be marked N/A. If the space provided is not adequate for a specific topic, additional sheets may be added. Ensure the additional sheets include Section and Item Numbers.

UNIVERSITY OF NEVADA, LAS VEGAS

January 8, 2019

TO: Marta Meana, Acting President
FROM: Diane Z. Chase, Executive Vice President and Provost
RE: Designation of Institutional Official

Formal approval is hereby requested to designate [REDACTED]
[REDACTED] to serve on behalf
of the University as:

1. Institutional Official on the University's Federal-wide Assurance (FWA) for the Protection of Human Subjects and all related duties, including appointment of Institutional Review Board members and communication with the Office of Research Integrity-Human Subjects (ORI-HIS). In this role, such position assumes overall responsibility for compliance with the federal regulations for the protection of human subjects in research (45 CFR 46).
2. Institutional Official for annual reports to the National Institutes of Health (NIH) Office of Biotechnology and compliance with the Recombinant DNA Guidelines. This encompasses all Institutional Biosafety Committee (IBC) compliance activities, including appointment of board members and review of recombinant DNA research as required in the NIH Guidelines.
3. Institutional Official for the University's animal care program as required in the PHS Policy on Humane Care and Use of Laboratory Animals. In this role, such position assumes overall responsibility for ensuring compliance with all principles spelled out in such policy and providing overall compliance oversight to the program, including appointing members of the Institutional Animal Care and Use Committee (IACUC) and regular communication with the attending veterinarian.
4. Empowered Official for Export Control matters. While certain oversight functions may be delegated, such position is legally empowered to sign export license applications and otherwise bind the university in any proceeding before the Directorate of Defense Trade Controls (DDTC), the Bureau of Industry and Security (BIS), the Office of Foreign Assets Control (OFAC), or any other government agency with export control responsibilities. The Empowered Official has the independent authority to refuse to sign any license application

or other request for approval without prejudice or other adverse recourse. (22 CFR 120.25)

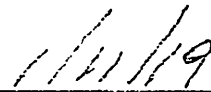

Non-routine matters with serious political, social, financial or public impact must still be reviewed above their formal approval level.
