Institutional Animal Care and Use Committee (IACUC).

There was no report to the Institutional Official (IO) prepared after the semi-annual review conducted on May 23, 2022.

Hand-written notes from the review include plans for correction such as label dog food, monitor fridge/freezer temps, etc. but do not list the deficiencies, do not distinguish significant from minor deficiencies, and do not include a schedule with dates for correcting each deficiency.

Failure to submit reports of semi-annual reviews can result in the IO not being adequately informed of issues in the program or facility.

The research facility must prepare reports every 6 months upon completion of semiannual evaluations that contain a list of deficiencies, distinguish significant from minor deficiencies, a plan and schedule with dates for correcting each deficiency, and is signed by a majority of IACUC members and includes any minority views.

This inspection and exit interview were conducted with the IACUC chair.
