Attachment 4: D16-00602 – NIH IRP Minority Report:

National Cancer Institute:

This is a minority opinion report filed regarding the NCI 2022 Fall Semiannual Report. At the NCI semiannual review meeting on 10/26/2022, the ACUC voted on the classification of facility inspection deficiencies. The majority of the committee voted to classify these findings as minor because they felt they did not pose a threat to the health and safety of animals; however, two members filed this minority opinion report expressing their concerns that several facility deficiencies should be classified as significant based on their long-term presence in the facility and recurrence on the semiannual facility inspection report.

Morning Sandy,

I am still waiting on information from Drs. Hanley and Labitt, but can provide the following information:

ACUC Chairs for all Institutes can be classified as scientists.

The dates of the APF semiannual evaluations are correct: 12/2021 and 06/2022. The next evaluation took place in 12/2022, but that date is after the end of the reporting period for the FY2022 Annual Report and will be included in the FY2023 Annual Report.

Tannia Clark:

- **Degrees:** BSL from University of Mary Washington; DVM from Virginia-Maryland College of Veterinary Medicine; MS in Public Health Microbiology and Emerging Infectious Diseases from George Washington University
- **Training or experience in laboratory animal medicine or in the use of the species at the institution:** Completed a Laboratory Animal Medicine Residency/Postdoctoral fellowship at NIH. Diplomate, American College of Laboratory Animal Medicine. Thirteen years of veterinary experience and eleven years of laboratory animal medicine and surgery experience
- **Responsibilities:** Manages both the Animal Program and the Animal Surgery and Resource Core services for National Heart, Lung, and Blood Institute (NHLBI) research animals including direct animal program operations and technical services in surgical and therapeutic procedures in various large (swine, dogs, nonhuman primates), small animal (rodents, rabbits), and aquatic animals (zebrafish, xenopus spp.). Provides technical assistance to investigators on animal model selection, surgical approach, Animal Study Proposals and associated amendments during entire study development life-cycle so as to ensure compliance with regulations, addressing humane endpoints, current veterinary practices, animal welfare, and the 3Rs (Replace, Reduce, Refine). Also oversees the NHLBI animal import and export, mouse rederivation and cryopreservation services. Serves as the Attending Veterinarian for the NHLBI ACUC and serves as subject matter expert to NIH IRP Animal Program.
- **Authority:** Dr. Tannia Clark has direct program authority and responsibility for the Institution's animal care and use program including access to all animals.
- **Time contributed to program:** 100%

Quentin Wilson:

- **Degrees:** B.S. Animal Science; Doctor of Veterinary Medicine (DVM); Diplomate of the American College of Laboratory Animal Medicine (DACLAM)
- **Training or experience in laboratory animal medicine or in the use of the species at the institution:** Completed a 2 year laboratory animal residency at Wake Forest School of Medicine receiving clinical training, and providing care for a wide range of rodent, carnivore, ungulate, and NHP species. Upon completion of the residency has been practicing as a laboratory animal veterinarian at the NIH since 2017.
- **Responsibilities:** Attending Veterinarian and Animal Program Director for the NIDA-

IRP animal program and ACUC. He oversees both federal and contract animal program staff, approves budget items, is a voting member of the ACUC, and oversees operations of the animal program.

- **Authority:** *Dr. Quentin Wilson has direct program authority and responsibility for the Institution's animal care and use program including access to all animals.*
- **Time contributed to program:** *Full time; 100% effort to the animal care and use program*

I will provide the additional requested information as soon as possible.
