Certificate: **86-R-0042**

Site: 021

PIMA MEDICAL INSTITUTE

Type: ROUTINE INSPECTION

Date: 16-SEP-2019

3.6(b)(4)

PRIMARY ENCLOSURES.

A cage containing one cat did not have an elevated resting surface. The use of elevated resting surfaces satisfies a behavioral preference for many cats. The licensee must ensure that each primary enclosure housing cats contains a resting surface or surfaces that, in the aggregate, are large enough to hold all the occupants of the primary enclosure at the same time comfortably. The resting surfaces must be elevated, impervious to moisture, and be able to be easily cleaned and sanitized, or easily replaced when soiled or worn.

TO BE CORRECTED BY SEPTEMBER 23, 2019

This inspection and exit interview were conducted with the program director.
