

**Summary of IACUC approved exception to standards and regulations of AWA**

Registration Number: 31-R-0014/216

Approved by IACUC:

Space Requirements §3.128: Piglets and calves are used in gnotobiotic studies, which require that they are maintained in primary enclosures that allow animals to make postural adjustments without impedance during the initial stage of the study, but that result in the touching of enclosures during normal postural adjustments during the final stage of the study. Piglets and calves are in the cages from birth up to 56 days. This exception involved 4 calves and 230 piglets during this reporting period.

Reporting Period: 10/1/20 to 9/30/21
