Thank you Bob. OLAW also found no additional action items in the most recent PCRM letter and will administratively close our case.

Sincerely, Brent

Hi Brent. We looked into the complaint again found no noncompliances associated with the activity. We are closing it for that reason. Let me know if you have any questions. Thanks.....
Bob

Hi Brent -- we have an open investigation on WF from 2021 that is still open, but it does not cover the latest PCRM complaint. I've reached out to our inspector and supervisor for WF to see what the status of the current complaint is, and will let you know what I hear from them. Thanks.....Bob

Hi Bob,

Sorry to bother you again. You and Pat Brown received the same October 5, 2022 letter from PCRM concerning NHP use in a human nutrition study at WFU. NIH also received a similar letter dated September 13, 2022 from PCRM. Although the newer letter contains no new information regarding PHS Policy concerns, I wanted to again wait and see what your plan was for USDA. I'll hold

the OLAW case open for now. Let me know when you can. Thanks again, Bob.

Sincerely, Brent
