Hi Emily

Please let me know if you've any questions. I am checking email and phone intermittently. If we could have this new site canceled this week, I would feel a lot better about our research sites remaining to be inspected.

Hello,

We have a new site of Novartis in Boston that has recently been added, this should not be added as a new site, as this is an existing site that has been inspected already this FY. This is a change in address as the 250 Mass Av is a different entrance of the building located at 100 Tech Square building.

Please remove/cancel the new site:

Good morning,

It looks like Emily is out of the office. I'm hoping that someone can cancel the "new site" really soon. Please read below and call me if any questions. I will be available until later this afternoon intermittently with travel.

Thank you [REDACTED] for taking care of this in Emily's stead. This site will not come up on my site lists, so I didn't catch it in a timely manner. My very detail oriented VMO (Paula) noted it and brought to my attention, thank goodness!

Hi Dr. Hadjis,

I've made California based Novartis' Massachusetts registration site 002 ([Novartis Institutes for BioMedical Research](#)) inactive based on our call this morning, I don't see a Massachusetts site listed in any correspondence or on their registration app so it may have been added mistakenly. Hopefully Emily will be able to let us know once she returns from leave if the CA Novartis registration needs a MA site too. Thank you for the clarification by phone.

Respectfully,

Hi Dr. Hadjis,

I'm taking a look at the below request to cancel the new site for [Novartis Institutes for BioMedical](#)

[Research](#), but I'm having trouble making sense of the sites in eFile. Could you give me a call at (970) 494-7544 when you have a minute this morning to touch base on this. Thanks!
