A4654-01 [OLAW Case J]

Eion Ramcharan, Ph.D.
Head of Sponsored Research
Max Planck Florida Institute for Neuroscience
1 Max Planck Way
Jupiter, FL 33458

Dear Dr. Ramcharan,

The Office of Laboratory Animal Welfare (OLAW) acknowledges receipt of your May 30, 2023 letter reporting an instance of noncompliance with the PHS Policy on Humane Care and Use of Laboratory Animals at the Max Planck Florida Institute for Neuroscience (MPFI). Your letter supplements the information contained in the initial email report on May 5, 2023. According to the information provided, OLAW understands that a researcher performed a surgical procedure on multiple mice that was not detailed in the approved protocol. The surgical procedure was similar to one previously approved. The associated activity is not PHS funded.

Corrective and preventive actions:

The laboratory members and principal investigator (PI) met with the IACUC Chairman and Coordinator to review the animal protocol and IACUC policy for amending a protocol. An amendment to add the new procedure was reviewed and approved by the IACUC.

The consideration of this matter by the Max Planck Florida Institute for Neuroscience was consistent with the philosophy of institutional self-correction. Similarly, the actions taken to resolve the issue were appropriate and would be expected to correct the noncompliance and prevent a recurrence. Although this activity was not PHS funded, the application of the expectations of the PHS Policy across the animal care and use program reduces any potential appearance of a double standard. We appreciate being informed of this matter and find no cause for further action by this office at this time.

Sincerely,

Brent C. Morse -S

Brent C. Morse, DVM

Director

Division of Compliance Oversight

Office of Laboratory Animal Welfare

Re: Animal Welfare Assurance # A4654-01

Dear Dr. Wolff,

This is the final report of non-compliance that is being submitted by the Max Planck Florida Institute for Neuroscience (MPFI), following the preliminary report submitted May 9, 2023 (case number A4654-J).

Background

A researcher performed a surgical procedure on multiple mice that was not detailed in the approved protocol. The surgical procedure was similar to one previously approved.

Conclusion

The MPFI IACUC discussed the incident at a conveyed meeting and approved the corrective actions completed by the laboratory. The laboratory members and principal investigator (PI) met with the IACUC Chairman and Coordinator to review the animal protocol and IACUC policy for amending a protocol. An amendment to add the new procedure was reviewed and approved by the IACUC.

This incident is not related to a PHS funded project.

Sincerely,

(b) (6)

WARNING EXTERNAL EMAIL:

Good afternoon Dr. Ramcharan,

Thank you for sending us this preliminary report and we look forward to receiving the final report once completed. This report has been assigned OLAW case number **A4654-J**, so please reference this number when sending the final report.

Best,
Devora

Re: Animal Welfare Assurance # A4654-01

Dear Dr. Wolff,

This is a preliminary report of non-compliance that is being submitted by the Max Planck Florida Institute for Neuroscience (MPFI).

Background: A researcher performed a surgical procedure on multiple mice that was not detailed in the approved protocol. The surgical procedure performed was similar to one previously approved.

A final report of non-compliance and corrective action plan is pending from the MPFI IACUC and will be submitted upon completion.

This incident is not related to a PHS funded project.

Sincerely,
