## Inspection Report

Nashville Zoo at Grassmere  
3777 Nolensville Pike  
Nashville, TN 37211

Customer ID: **7457**

Certificate: **63-R-0130**

Site: 002

NASHVILLE ZOO

Type: ROUTINE INSPECTION

Date: 19-JUL-2023

### 2.31(c)(3)

#### Institutional Animal Care and Use Committee (IACUC).

The facility has not prepared a report of the semi-annual evaluations (facility inspection and program review) completed in August 2022 and March 2023. The evaluation report is required to be prepared and submitted to the Institutional Official to ensure that the Institutional Official and the facility are aware of the extent and nature of compliance and can ensure compliance with the Animal Welfare Act. Correct by preparing an evaluation report for the March 2023 semi-annual evaluations and all future semi-annual evaluations and submitting the report to the Institutional Official. Correct by 8/10/23.

### 2.38(l)(1)(ii)

#### Miscellaneous.

The facility has a documented contingency plan but it primarily addresses emergencies from the human zoo visitor standpoint. The plan is missing details related to the specific tasks required to be carried out related to the animals such as instructions and provisions for backup sources of food and water, sheltering in place versus evacuation of animals, as well as husbandry requirements such as sanitation, ventilation, veterinary care etc. during the emergency. Having a plan in place will help provide for the humane handling, treatment, transportation, housing, and care of their animals in the event an emergency or disaster occurs. Correct by ensuring the written contingency plan includes all required information. Correct by 8/31/23.

This inspection and exit interview were conducted with the IACUC Chair.
