| <p>Results:</p> <p>This complaint refers to citations on a prior inspection report. Animal Care inspectors conduct unannounced inspections for all USDA registered and licensed facilities. Our authority is to ensure that they meet the standards required by Federal regulations. We also perform inspections in response to valid concerns and complaints received from the public to ensure the well-being of the animals and compliance with Federal law.</p> <p>When non-compliant items are found, these noncompliances are cited on the inspection report under the most accurate regulation based on the circumstances of the issue. Multiple noncompliances for the same issue are only cited when appropriate. With the exception of focused inspections, our inspectors evaluate the facility for compliance with all applicable regulations. Although all regulatory requirements are assessed, only noncompliant items are listed on the inspection report.</p> <p>We will continue to inspect this facility to make sure that past noncompliances are corrected and that AWA-regulated animals are protected to the fullest extent of Federal law.</p> |                                 |                                  |       |
