Exceptions to Regulations:

Registration Number: 22-R-0144

Exceptions to the regulations and standards specified and explained by the principal investigator and approved by the IACUC.

Forty-eight dogs were used in a study involving challenge with a [REDACTED] organism. For biosafety concerns the dogs were exempted from the exercise program for 8 days. The caging was in full compliance and provided 100% of the required space. The IACUC reviewed and approved the exception and the study.
