December 3, 2014

Dear Dr. Goldentyer:

NYULMC, DLAR wishes to amend the IACUC approval exception to AWR summary as follows.

IACUC Approval Exception to AWR Summary:

The IACUC approved one protocol during this period that involved water scheduling for nonhuman primates. This exception affects one *Macaca mulatta*.

The justification for the exception is as follows:

This IACUC protocol employs standard methods used to study sensory and motor function in animals performing behavioral tasks and conforms to the guidelines set forth in the 2010 National Research Council publication *Guide for the Care and Use of Laboratory Animals* (pg. 32-33) and Van Sluyter RC et al (2003) *Guidelines for the Care and Use of Mammals in Neuroscience and Behavioral Research*. Washington, DC; National Academy Press, [pg. 209].

Sincerely,

(b) (6), (b) (7)(C)
