According to the Paperwork Reduction Act of 1995, an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 0579-0036. The time required to complete this information collection is estimated to average 1 hour per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information.

OMB APPROVED 0579-0036 Exp.: 10/31/2018

UNITED STATES DEPARTMENT OF AGRICULTURE ANIMAL AND PLANT HEATH INSPECTION SERVICE ANIMAL CARE

PROGRAM OF VETERINARY CARE

INSTRUCTIONS

For use of this form, see 9 CFR 2.40 (Animal Welfare Regulations, Title 9, Subchapter A, Part III, Subpart D, Section 2.40)

The attending veterinarian shall establish, maintain, and supervise programs of disease control and prevention, pest and parasite control, preprocedural and post-procedural care, nutrition, euthanasia, and adequate veterinary care for all animals on the premises of the licensee/registrant. A written program of adequate veterinary care between the licensee/registrant and the doctor of veterinary medicine shall be established. By law, such programs must include regularly scheduled visits to the premises by the veterinarian. Scheduled visits are required to monitor animal health and husbandry.

This optional form or an equivalent format may be used to meet the requirement for a written Program of Veterinary Care. This form may be used as a guideline for developing and writing the veterinary care plan for your animals.

Pages or blocks which do not apply to the facility should be marked N/A. If the space provided is not adequate for a specific topic, additional sheets may be added. Ensure the additional sheets include Section and Item Numbers.
