ST LAWRENCE UNIVERSITY

Type: ROUTINE INSPECTION

Date: 29-JUN-2017

3.125(a)

FACILITIES, GENERAL.

There is a large crack observed encompassing the floor which spreads through most of the animal rooms. This condition can prevent the area from becoming completely sanitized during cleaning. This can harbor pathogens and possibly lead to illness of the animals. All housing facilities must be maintained in good condition. The facility must develop a plan in order to correct this issue.

*****Correct by developing plan by September 1, 2017

An exit briefing was conducted with the facility representatives.
