ADVANCED SCIENCE RESEARCH CENER OF CUNY

Type: ROUTINE INSPECTION

Date: 20-APR-2017

2.31(e)(3)

INSTITUTIONAL ANIMAL CARE AND USE COMMITTEE (IACUC).

Item IACUC 2.31 e 3

At the time of inspection protocol 2016- 9 was reviewed. It indicates an intramuscular injection of axon tracer will be administered into the biceps or extensor carpi radialis muscle. In reviewing medical records the tracers were injected into both forelimbs, which was not documented in the protocol.

The investigator needs to provide an amendment to the IACUC indicating that both forelimbs will be used for the tracers and the IACUC needs to approve the amendment .

Correct by 4/30/2017

An exit interview took place with the consulting Veterinarian
