INSTITUTIONAL ANIMAL CARE AND USE COMMITTEE (IACUC).

On the facility semiannual inspection report, there is a list of "areas of concern" from the IACUC. However, there is no indication of the severity of these "concerns", nor is there a correction date or plan for any of these. These semiannual reports must distinguish any deviations from the animal welfare act, must distinguish minor from significant deficiencies, and must assign a reasonable correction date for any deficiencies.
Correct from this date forward.

2.36 (b) (6)

ANNUAL REPORT.

The facility's annual report only lists 2 cats as being used for the previous year (2013.) Records of acquisition and disposition show that at least 36 dogs and 1 additional cat were used in fall of 2013, alone. The annual report must list the common names and the numbers of animals used for experiments, teaching, research, surgery, or tests.
Correct from this date forward.

Inspection and exit interview conducted with facility representative.
