FACILITIES, GENERAL.

The lower rear corner of the metal degu enclosure has rusted. One area of the rusted metal has broken and is protruding into the enclosure. Broken metal in an enclosure can lead to structural instability and can possibly cause injury to the animals. The facility must ensure that all housing facilities shall be structurally sound and shall be maintained in good repair to protect the animals from injury and to contain the animals. To be corrected by 15 June 2016.

The inspection and exit interview were conducted with facility representatives and Margaret A Shaver, VMO in attendance.
