Hi All,

We are presently looking around for spare CD1 mice housed in the barrier facility for optimization experiments. We are hoping for 8 adult males as old as we can get them. If not, females and adult CD1 mice in general would be great too.

If you have any, could you please let me know?

Thanks very much,

Hi all,
Our lab is down-sizing its tau K0 colony and we have mating pairs as well as
litters of young mice (<4 months old). If you are interested in using
any of

these mice, I would be happy to transfer them to you.
Thanks,
