

USNPRC Category E Explanation 2019

Registration Number: 57-G-0001
Customer Number: 334023

Species	Number	Explanation
Chickens	637	Poultry challenged with a virus develop ocular/nasal discharge, sneezing, difficult breathing, and facial swelling. Natural progression of the disease, in the absence of treatment with antivirals or analgesics, is required in order to evaluate the protection of candidate vaccines and the transmission of the virus.
Turkeys	174	
Ducks	86
