YOUNGSTOWN STATE UNIVERSITY

Type: ROUTINE INSPECTION

Date: 20-OCT-2016

2.31(c)(3)

INSTITUTIONAL ANIMAL CARE AND USE COMMITTEE (IACUC).

IACUC completed facility inspections and program reviews on March 31, 2016 and September 29, 2016. No completed semi-annual evaluation reports have been sent to the Institutional Official. It is important to involve the Institutional Official in the IACUC's evaluations of the research facility and to inform them of the status of the facility's programs to allow the Institutional Official to follow up on correction of significant deficiencies. This ensures that appropriate authority can be exercised by the Institutional Official when needed to support the facility's continued humane care and use of animals. The IACUC must prepare reports based on the facility program review and inspection, update them every six months, submit them to the Institutional Official in a timely fashion, and have them available for inspection by APHIS officials.

Correct by November 18, 2016.

No regulated species present at the time of this inspection.

This inspection and exit interview were conducted with facility representatives and the Associate Vice President for Research.
