Re: Animal Welfare Assurance
#A3180-01 (OLAW Case 5S)

Dr. Robert Nobles
Vice President for Research Administration
Emory University
1599 Clifton Road NE – 1599-001-1BE
Atlanta, GA 30322

Dear Dr. Nobles,

The Office of Laboratory Animal Welfare (OLAW) acknowledges receipt of your February 3, 2020 letter reporting an instance of noncompliance with the PHS Policy on Humane Care and Use of Laboratory Animals at Emory University following up on an initial January 31, 2020 notification by email.

According to the information provided, this Office understands that the Emory University Animal Care and Use Committee (ACUC) determined that instances of noncompliance occurred with respect to: a rat pup found dead due to an improperly set up weanling cage on August 27, 2019. Corrective actions included the following:

- Veterinarian staff coached the lab personnel on the importance of providing food and water.
- Lab personnel was instructed to retake the DAR Weaning assessment.

The final report states the IACUC believes the investigation of this incident was thorough and corrective actions were appropriate. It is noted that the protocol is supported by PHS funding. Based on its assessment of this explanation, OLAW understands that Emory University has implemented appropriate measures to correct and prevent recurrences of these problems and is now compliant with provisions of the PHS Policy. We appreciate being informed of these matters and find no cause for further action by this Office.

Sincerely,

(b) (6)

Jacquelyn T. Tubbs, DVM
Veterinary Medical Officer
Division of Compliance Oversight
Office of Laboratory Animal Welfare

Re: Emory University, Animal Welfare Assurance #A3180-01

Dear Dr. Morse,

The Emory University Institutional Animal Care and Use Committee (IACUC), through the Institutional Official, is reporting the results of an event as required by section IV, F, 3a of the *Public Health Service Policy on Humane Care and Use of Laboratory Animals* (PHS Policy). A preliminary report was provided via email to your office on January 31, 2020. This is the final report regarding the death of rat pup due to improperly set up weaning cages. The associated NIH-funded grant is K08AA0245122-01A1.

Situation and Assessment

On August 27, 2019, a rat pup was found dead due to an improperly set up weaning cage.

The corrective actions to prevent recurrences are detailed as follows:

1. Veterinarian staff coached the lab personnel on the importance of providing food and water for all weaning cages.
2. Lab personnel was instructed to retake the DAR Weaning assessment.

The IACUC believes its investigation of this incident was thorough and the corrective actions appropriate to prevent a similar occurrence. If you have questions regarding this incident, please contact me or Dr. David Martin, Director, IACUC Office.

Sincerely, (b) (6)

To Whom It May Concern,

Please accept these preliminary notifications of rodent health and welfare concerns at Emory University (Assurance #A3180-01).

- An incident occurred where a mouse pup died due lack of food and dehydration. The NIH grants associated with the protocol are K08AA024512-01A1 and R01-AA025857.
- An incident occurred where a vole died due to trauma during a cage change. The NIH grants associated with the protocol are 4R01MH096983-05 and P50MH1000023-06.
- An incident occurred where a vole died due to being placed in a wrong cage. The NIH grants associated with the protocol are 4R01MH096983-05 and P50MH1000023-06.

A final report will be upcoming.

Best,
 (b) (6)
