### 3.78(d) REPEAT

#### OUTDOOR HOUSING FACILITIES.

\*\*\*The perimeter fence is approximately one foot in distance from the outer wall of the outdoor primary enclosure of the marmoset.

A perimeter fence must be of sufficient distance from the outside wall or fence of the primary enclosure to prevent physical contact between animals inside the enclosure and both animals and humans outside the perimeter fence. Such fences less than three feet in distance from the primary enclosure must be approved by the Administrator.

This inspection and exit interview were conducted with the Institutional Official and APHIS personnel.

**To:** Engel, Dominique - APHIS <[Dominique.Engel@aphis.usda.gov](mailto:Dominique.Engel@aphis.usda.gov)>  
**Subject:** Re: updating license

Hi Dr. Engel,

Thank you so much for your speedy response! I really enjoyed the opportunity to speak with you all yesterday. I received your report, and I have completed the variance request (see attachment). If you don't mind taking a look at this for me, and/or sending it off to the relevant USDA representatives for review -- I'd sure appreciate it.

I plan to contact Katie Whisenton either this afternoon, or Monday morning, regarding our need to update our license. Thank you for letting me know about that, and passing on her contact information.

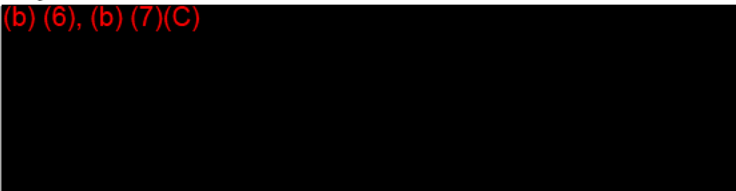

Lastly, if you don't mind, I'd like to make sure that I got all of the take-aways from our meeting yesterday -- would you mind letting me know if I am missing anything?

- 1) Variance Request (attached)
- 2) Print General Research Protocol (just for ease of access next time)
- 3) In the "Environmental Enrichment" section of our protocols, change "I.O" to "authorized personnel" (or equivalent term), to better reflect the fact that the I.O. is not the only individual authorized to supervise the marmoset outdoors.
- 4) Change "treatment as needed" on our Animal Care Program to something similar to "treatment as prescribed by veterinarian, if clinical signs or parasites are observed".
- 5) Have our attending veterinarian, Dr. Matthew Johnston, fill in the "Blood Parasites" section on the Animal Care Program -- even if it's merely filling in with an "N/A"
- 6) Strongly consider updating the volunteer requirements to include TB testing -- I would assume volunteers ought to have a TB test done annually (as I have it done annually), is that correct?

Thank you so much for your help and guidance. It really was a pleasure to meet you and Tanya yesterday. I appreciate your dedication to ensuring animal welfare standards are being met, and I look forward to a productive relationship moving forward. Have a wonderful weekend, and please let me know if you have any further questions or concerns.

Kyle Taitt

Kyle,

It was so nice to meet you and Bubba today. I forgot to mention this to you, but I spoke with Katie Whisenton from the Fort Collins office and she would like you to give her a call to update your license. Please call the office at 970-494-7478 and ask to be connected to Katie Whisenton. She is expecting your call.

Again, if you have any additional questions or concerns, please don't hesitate to contact me. And I will be looking out for your variance request.

#### MISCELLANEOUS.

There was no one available during business hours to allow APHIS Officials to enter and inspect the facilities, property, records, and animals on 05-OCT-17 at 11:37 AM.

At 11:37 AM on October 5, 2017, APHIS inspector arrived at the facility to conduct an unannounced inspection. After knocking on the door and receiving no response, the inspector called the phone number provided by the facility and spoke with the licensee. He informed the inspector that he was not at the facility and unable to return for an inspection. APHIS inspector notified the licensee that this would be considered an attempted inspection.

### MISCELLANEOUS.

There was no one available during business hours to allow APHIS Officials to enter and inspect the facilities, property, records, and animals on 06-MAR-18 at 1:28 PM.

APHIS inspector arrived at the facility at 1:28 PM on Tuesday, March 6, 2018. APHIS inspector called the phone number provided by the licensee and left a voice message notifying him that she was at the facility to conduct an inspection. APHIS inspector then knocked on the door. When no one answered, she waited for 30 minutes before leaving the premises.

#### INSTITUTIONAL ANIMAL CARE AND USE COMMITTEE (IACUC).

\*\*\*The Institutional Official informed the APHIS inspector that due to complications with scheduling and retaining IACUC members, the IACUC has not been able to meet since July 14, 2017. The most recent IACUC reviews of the facility's program for humane care and use of animals and the animal facilities occurred on July 14, 2017.

Inspection of the animal facilities by the IACUC and review of the program for the humane care and use of animals by the IACUC are required at least every six months to ensure that any activities involving animals at this facility are being conducted in a manner to reduce pain and/or distress and they meet the current standards for the species involved.

The IACUC, as an agent of the research facility, shall inspect, at least once every six months, all of the research facility's animal facilities, including animal study areas, using title 9, chapter I, subchapter A- Animal Welfare, as a basis for evaluation. The IACUC must also review the research facility's program for humane care and use of animals, at least once every six months, using title 9, chapter I, subchapter A

This inspection and exit interview were conducted with the Institutional Official.

#### INSTITUTIONAL ANIMAL CARE AND USE COMMITTEE (IACUC).

The most recent IACUC reviews of the facility's program for humane care and use of animals and the animal facilities occurred on July 14, 2017. Due to scheduling conflicts, the IACUC has been unable to meet since that date. The committee is scheduled to meet later this month to perform these reviews.

Inspection of the animal facilities by the IACUC and review of the program for the humane care and use of animals by the IACUC are required at least every six months to ensure that any activities involving animals at this facility are being conducted in a manner to reduce pain and/or distress and they meet the current standards for the species involved.

The IACUC, as an agent of the research facility, shall inspect, at least once every six months, all of the research facility's animal facilities, including animal study areas, using title 9, chapter I, subchapter A- Animal Welfare, as a basis for evaluation. The IACUC must also review the research facility's program for humane care and use of animals, at least once every six months, using title 9, chapter I, subchapter A.

This inspection and exit interview were conducted with the Institutional Official.

#### MISCELLANEOUS.

There was no one available during business hours to allow APHIS Officials to enter and inspect the facilities, property, records, and animals on 16-Apr-19 at 1:30pm.

The inspector arrived at the facility at 1:30 PM on April 16, 2019 and knocked on the door. After two minutes, the inspector knocked again. No one answered the door. At 1:35 PM the inspector called the phone number on file for the registrant. No one answered so the inspector left a voicemail. At 1:56 PM the registrant called back and informed the inspector that he was at work and would not be available to accompany the inspector on an inspection during normal business hours.
