### 2.33(a)

#### ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE.

Moles are a covered species and are not included in the facility's approved written Program of Veterinary Care (PVC). All covered species should be addressed in the PVC to ensure the facility has a program to follow concerning the care of all the animals.

Failure to do so could adversely affect the health and well-being of the animals. A complete and accurate written Program of Veterinary Care with consultation from the attending veterinarian must be in place.

Correct by 05/07/2017.

This inspection and exit interview were conducted with a facility representative.
