

## Column E Explanation

This form is intended as an aid to complete the Column E explanation. It is not an official form and its use is voluntary. Annual Reports and explanations should NOT include PII information such as names (principle investigators and research staff), addresses, protocols, meeting notes (either in part or in full), the animals room numbers, grant information, veterinary care programs, and the like. A Column E explanation must be written so as to be understood by lay person as well as scientists.

1. Registration Number: 93R-0532
2. Number 20 of animals used in this study.
3. Species (common name) rabbit of animals used in this study.
4. Explain the procedure producing pain and/or distress. Explanations should include a brief description of the procedure, but also explain what the animal's experience, examples of which may include, but are not limited to: Neurological signs, seizures, tremors, paralysis, lethargy, inappetence, respiratory signs, GI distress, vomiting, and diarrhea.  
 test article is being studied for the treatment of human papilloma virus-related conditions, such as cervical neoplasias. Test article is being administered intravaginally. The systemic & potential vaginal irritation effects include clinical signs of vaginal swelling, redness, vaginal discharge & bleeding.
5. Attach or include with the reason(s) for why anesthetics, analgesics and tranquilizers could not be used. (For federally mandated testing, see Item 6 below).  
 Non-pharmacological measures can be used to alleviate pain and minor discomfort (e.g. blanket, heat pad, extra food, etc.) Analgesics and NSAIDs used could confound the interpretation of the data. Any animal found in excessive pain will be euthanized.
6. What, if any, federal regulation require this procedure? Cite the agency, the code of Federal Regulations (CFR) title number and the specific section number (e.g. APHIS, 9 CFR 113.102):
